Harbour Area Treatment Scheme Consultancy Studies Related to Philosophy & Strategy Development of the Scheme 淨化海港計劃

有關計劃理念及策略發展之顧問研究

Consultancy Study 顧問研究	Study Scope 研究範圍	Name of Main Consultants 主要顧問名稱	Date 日期
Sewage Strategy Study 污水策略研究	Develop a sewage strategy for the whole territory including SSDS. 提出一套全港性的污水策略,包括策略性污水排放計劃。	上女権用中11144 Watson Hawksley Consulting Engineers	From January 1988 to November 1989 八八年一月至八九年十一月
Review of SSDS Stage II Options 檢討策略性污水排放 計劃第二期方案	Review the feasibility and full implications of providing different treatment options under Stage II of the SSDS. 檢討在策略性污水排放計劃第二期工程提供不同污水處理方案的可行性和各項影響。	Pypun Engineering Consultants Ltd.	From July 1994 to April 1995 九四年七月至九五年四月
SSDS Environmental Impact Assessment Study 策略性污水排放計劃環境影響評估研究	The prime objectives of the study were to confirm, based on the recommendations and findings of related studies, the preferred treatment and disposal option for the SSDS to protect the coastal waters of Hong Kong and the Mainland, and to carry out an EIA of the preferred option to evaluate and mitigate its impacts on the environment. 研究的主要目的是,根據其他有關研究的結果和建議,就策略性污水排放計劃確定較佳的污水處理和排放方案,以保護香港及內地海岸水域,並對較佳方案進行環境影響評估研究,評估及緩解排污對環境的影響。	Montgomery Watson in joint venture with Binhai Wastewater Treatment & Disposal (HK) Consultants Ltd.	From May 1996 to August 2000 九六年五月至二千年八月
