Dear Dr Lo,

Re : Human Organ Transplant (Amendment) Bill 2001

The College, in general, support the document. However we feel that Item 9 – “Transplant of Organs previously removed for therapeutic purposes” needs clarification.

- (1) What are the types of transplants not subject to the requirements set out in Section 5 of the Ordinance?
- (2) Is there a definition for “therapeutic purposes”? It seems that all organ transplants are for therapeutic purposes.

Yours sincerely,

Dr C C Chi
Hon Secretary
