Sham Shui Po					
4	045CX Tung Chau Street Complex	588.00	<u>Leisure & Culture</u> 1 Leisure centre 1 Store for Entertainment office 1 District library 1 Car-park <u>Environmental Hygiene</u> 1 Air-conditioned market	<p>Recommended “not to proceed” with regard to the proposed LCS facilities.</p> <ul style="list-style-type: none"> At present, Sham Shui Po has a population of about 360 000 with a provision of four public libraries (i.e. the district libraries in Lai Chi Kok and Po On Road as well as the small libraries in Pak Tin Estate, Shek Kip Mei and Un Chau Street) provide library service to the residents within the district. There is no pressing need to construct another district library in Tung Chau Street. There are five indoor recreation centres in Sham Shui Po with average usage rate ranging from 65% to 84% in peak period and 19% to 46% in non-peak period in 1999-2000. These five indoor recreation centres are able to meet the demand in the district. There are two leisure centres under planning which include this project and the Fuk Wing Street Complex project. Having regard to the demand of the district as well as the distribution and location of the two leisure centres under planning, the project site at Tung Chau Street will have an edge in location to provide a wide range of facilities. The need for this project would be kept under review. 	<ul style="list-style-type: none"> According to the planning criteria set by the former Urban Council, there should be an additional district library in Sham Shui Po. Therefore, the library in this project should be retained. The nearby housing development at Cheung Sha Wan West was nearly completed, it was anticipated that there would be an increase for demand of facilities. The department might consider incorporating the proposed facilities in other projects (e.g. the music centre in Fuk Wing Street Complex, cultural venues which were in great demand and other government facilities) into this project so as to augment the plot ratio to meet GPA's requirement and to expedite implementation of this project. Feasibility of this project, including the plot ratio issue, was discussed by the former Urban Council. The department should take immediate action to coordinate with other departments with a view to including this project in the PWP in 2002.

2	160CR Temporary Recreational Development at Ma Yau Tong West Landfill	59.96	1 Rest garden 1 Storeroom 1 Meter-room cum office Toilet facilities	<p>Recommended to "proceed at a later stage"</p> <ul style="list-style-type: none"> • Ngau Chi Wan, Ma Yau Tong West, Ma Yau Tong Central (Lam Tin), Sai Tso Wan and Jordan Valley are five identified landfill sites for development in the urban area. The landfill sites in Sai Tso Wan and Jordan Valley, which have been given priority for recreational development, will be developed and managed by the EPD. As the development is the first of its kind in Hong Kong, the long term development objective of other landfill sites will be finalised when EPD has obtained relevant experience. In the meantime, EPD is also studying other alternatives, such as inviting non-profit making bodies or national sports associations to develop the remaining sites with a view to maximizing the land use. • There are Sau Mau Ping Road/Hiu Kwong Street Sitting-out Area and Sau Mau Ping Bus Terminus Amenity Plot in the vicinity for the use by residents in the neighbourhood. 	<ul style="list-style-type: none"> • No objection to the department's recommendation.

4	444CR Improvement to Kwun Tong Swimming Pool	262.50	Conversion of the existing outdoor pools into indoor heated pools	<p>Recommended to "proceed at a later stage"</p> <ul style="list-style-type: none"> • Since the usage rate of Kwun Tong Swimming Pool is very high, large scale improvement works will cause inconvenience to local residents. Therefore, the department proposes that small scale renovation and improvement works of the swimming pool facilities be implemented first. 	<ul style="list-style-type: none"> • Members were disappointed at the department's recommendation to proceed with the project at a later stage. • It is suggested to conduct feasibility of constructing an outdoor heated pool so as to reduce the project cost. • Members considered the department's decision to withhold the project on the grounds of high usage rate unacceptable. They suggested that construction works be carried out by stages or on parts of the works areas.

5	120CR Lam Tin North Family Leisure Centre	519.75	1 Family leisure centre 1 District library 1 Indoor heated leisure pool 1 Training pool 1 Conference room and reading room for Home Affairs Department 1 Music centre Car-parking spaces	<p>Recommended to "proceed at a later stage"</p> <ul style="list-style-type: none"> The project site is currently used as a bus terminus and is not yet available for development. There are eight indoor recreation centres in Kwun Tong District with average usage rates ranging from 30% to 69% in 1999-2000. These eight indoor recreation centres should be able to meet the demand for indoor sports facilities in the district. The project site is in the vicinity of Lam Tin South Indoor Games Hall, which provides residents with indoor sports facilities (usage rates in non-peak period and peak period are 29% and 70% respectively). There is no pressing need to build this recreation centre. The population of Kwun Tong District is about 600 000. There are currently two district libraries and four small libraries in the district. One of these small libraries is located in Lam Tin District and we are considering upgrading the small library to a district library under normal procedures. 	<ul style="list-style-type: none"> Members had no objection to the department's recommendation but requested that an indoor heated pool be provided in the district as soon as possible.
