

**Estimated Number of**  
**Intimate Samples to be taken per year by C&ED**

At the last meeting held on 4 June 2001, Members of the Subcommittee enquired about the estimated number of intimate samples to be taken per year by the C&ED under the Dangerous Drugs Ordinance (Cap 134).

2. C&ED advise that the estimated number of urine samples to be taken by the department per year for drug-related offences is around 10. This is estimated base on the number of urine samples taken on consensual basis by C&ED for drug-related offences during the past three years, which are as follows –

| <i>Year</i>      | <i>No. of sample</i> |
|------------------|----------------------|
| 1999             | 19                   |
| 2000             | 8                    |
| 2001 (Jan – May) | 6                    |
