**Proactive Registration Campaign for Elderly Persons**

**Purpose**

This paper reports on progress of Housing Department's proactive campaign to assist eligible elderly persons to register on the waiting list for public rental housing.

**Background**

2. Care for the elderly has always been one of the Government and the Housing Authority's priorities. To address the elderly's housing needs, the Housing Authority has already put in place five priority schemes to facilitate our senior citizens, and their families living with them, to gain access to public rental housing. Notwithstanding the above efforts, we estimate that some 17 000 low-income elderly families are still living in non-self-contained private flats or temporary structures.

3. In his 2000 Policy Address, the Chief Executive has asked the Housing Authority to step up efforts to encourage and help eligible elderly people to apply for public housing between end 2000 and early 2001. We have pledged that eligible elderly applicants who register on the waiting list before the end of March 2001 will be allocated public rental flats by end 2003. With the support and assistance of the Social Welfare Department, the Home Affairs Department and the Buildings Department, we have launched a proactive registration campaign for the elderly.

**The Registration Campaign**

4. The registration campaign commenced on 22 November 2000 and will end on 31 March 2001. During the campaign period, we have launched intensive promotion and publicity activities to publicise the campaign through placement of advertisement in the media and prominent locations, briefings at social service agencies and interested bodies, distribution of information leaflets, holding exhibitions and road shows. We have enlisted the support of community organisations and social service agencies in disseminating campaign information to their elderly contacts. Besides, outreaching teams have also been despatched to

approach potential elderly applicants in bedspace apartments and outdoor venues such as parks and markets. On-site and walk-in registration service was provided at exhibition spots, Housing Information Centres, Housing Authority's Customer Service Centre and elderly centres operated by Social Welfare Department and voluntary agencies. A telephone hotline has also been set up to handle enquiries on the campaign and the registration procedures. Details of these activities are set out in the Annex.

**Outcome of the Campaign (up to 24 March 2001)**

Subject to eligibility and duplication vetting, they will be allocated rental flats before end 2003. The registration of elderly households is an on-going process. Registration service will continue to be provided in all Housing Information Centres and the Housing Authority's Customer Service Centre. For those who apply after 31 March 2001, Housing Authority will also make prompt offers to them according to established policies.
