Regulation of Advertisement Signboards

At the LegCo Members' meeting with Wan Chai District Council (WCDC) members held on 14 December 2000, WCDC members expressed support for the proposed registration system for regulation of advertisement signboards. The Deputy Chairman of WCDC also requested LegCo Members to have regard to the following points when considering the legislative proposal to regulate advertisement signboards -

- (a) The Administration should ensure that the proposed establishments for which signboards are to be erected are in compliance with the authorized use and the deed of mutual covenant of the buildings concerned; and
 - (b) The Administration should consult the District Councils on the proposed registration system of advertisement signboards.
2. LegCo Members who attended the meeting with WCDC members suggested that the issue be referred to the Panel on Planning, Lands and Works.
