

## **LEGISLATIVE COUNCIL BRIEF**

Occupational Deafness (Compensation) Ordinance  
(Chapter 469)

### **Occupational Deafness (Compensation) (Amendment) Bill 2002**

#### **INTRODUCTION**

At the meeting of the Executive Council on 19 March 2002, the Council ADVISED and the Chief Executive ORDERED that the Occupational Deafness (Compensation) (Amendment) Bill 2002, at Annex A, should be introduced into the Legislative Council.

#### **BACKGROUND AND ARGUMENT**

##### **Occupational Deafness Compensation Scheme**

2. The Occupational Deafness Compensation Scheme (the Scheme) was set up in 1995 under the Occupational Deafness (Compensation) Ordinance (the Ordinance) to provide compensation to employees who have been engaged in specified noisy occupations and suffered from noise-induced deafness. Compensation is paid for permanent loss of earning capacity. To be eligible for compensation under the Scheme, a person has to fulfill both disability and occupational requirements. For the disability requirement, a person should be suffering from sensorineural hearing loss amounting to a specified level in both ears.

3. The Scheme is administered by the Occupational Deafness Compensation Board (the Board) and is currently financed by a levy of 2.3% on the employees' compensation insurance premium paid by employers. However, in view of the financial difficulties encountered by the Employees Compensation Assistance Scheme (ECAS), we have introduced the

Employees Compensation Assistance (Amendment) Bill 2002 into the Legislative Council on 27 February 2002. That Amendment Bill aimed, inter alia, to reduce the levy rate for the Occupational Deafness Compensation Board by 1.1 percentage point between 2002-03 and 2006-07 and by 0.5 percentage point thereafter, so as to enable the levy rate of ECAS to be increased correspondingly.

4. The Scheme was last reviewed in 1996. Most of the recommendations arising from the review were implemented by the Occupational Deafness (Compensation) (Amendment) Ordinance 1998 (the Amendment Ordinance 1998). However, due to financial constraints, three recommendations to improve the benefits to employees were not implemented. These included regular review of the minimum and maximum levels of compensation, adjusting upwards the percentage of permanent incapacity and providing hearing assistive devices. During the legislative process in 1998, the Government undertook to carry out a further review of the Scheme two years after the enactment of the Amendment Ordinance 1998.

### **Review of the Scheme**

5. Against the above background, the Commissioner for Labour appointed a Working Group (WG) in December 2000 to conduct a further review of the Scheme. The WG comprised an audiologist, medical professionals as well as representatives of employers, employees, the Board, Education and Manpower Bureau and the Labour Department. The WG completed the review in July 2001 and put forward a number of recommendations.

### **The Proposal**

6. Having carefully examined the recommendations of the WG and the views expressed in the consultation period, we have formulated a package of improvements to the Scheme which include the following -

- (a) to raise the minimum and maximum levels of compensation in accordance with the rate of nominal wage increase (paragraph 8 below);
- (b) to revise upwards the percentage of permanent incapacity whilst maintaining the maximum level at 60% (paragraphs 9 and 10

below);

- (c) to provide reimbursement of expenses incurred in purchasing, repairing and replacing hearing assistive devices (paragraphs 11 and 12 below);
- (d) to add four new specified noisy occupations (paragraph 13 below);
- (e) to empower the Board to conduct or finance rehabilitation programmes (paragraph 14 below); and
- (f) to disregard no-pay leave in determining a claimant's earnings (paragraph 15 below).

7. The proposed improvements to the Scheme will result in higher expenditure by the Board. However, as at the end of December 2001, the Board has built up a sizable reserve of \$236 million. It should have sufficient financial resources to implement all the improvement measures even after the proposed reduction of levy mentioned in paragraph 3 above.

### **Package of improvements**

#### **(A) To raise the minimum and maximum levels of compensation in accordance with the rate of nominal wage increase**

8. Under the Ordinance, the amount of compensation payable is calculated with reference to the age, monthly earnings and percentage of permanent incapacity of the claimant. It is also subject to minimum and maximum levels, and the existing minimum and maximum levels have been used since 1995. To preserve the value of compensation so that it would not be eroded by changes in wage movement in recent years, it is proposed that the minimum level of compensation should be raised from the existing \$248,000 to \$341,000, and the maximum level from \$1.44 million to \$2.016 million. This is in line with the Government policy of adjusting the levels of compensation under the Employees' Compensation Ordinance and the Pneumoconiosis (Compensation) Ordinance. Details of the calculation are shown in Annex B.

**(B) To revise upwards the percentage of permanent incapacity whilst maintaining the maximum level at 60%**

9. In determining the amount of compensation, the degree of hearing loss suffered by a claimant will be translated into the percentage of permanent incapacity in accordance with the existing Schedule 4 of the Ordinance (Annex C). Having taken reference to the scales adopted by Singapore and the United Kingdom, we propose to revise the existing scale of percentages of permanent incapacity for different levels of hearing loss so as to improve benefits to claimants. The proposed Schedule 4 is at Annex D.

10. The current maximum level of loss of earning capacity of 60% will be maintained as this level is broadly comparable to those adopted in other countries such as Singapore, Australia and USA. Moreover, noise-induced deafness normally develops insidiously over a long period of time, and a person suffering from such deafness is more likely to be able to continue working without suffering total loss of earning capacity.

**(C) To provide reimbursement of expenses incurred in purchasing, repairing and replacing hearing assistive devices**

11. To enable persons suffering from occupational deafness to overcome the difficulties in communicating with other people, we propose to provide hearing assistive devices to claimants who are successful in obtaining compensation for permanent incapacity under the Ordinance. It is further recommended that this new item should be paid by way of reimbursement of the expenses incurred and subject to a maximum amount in aggregate per applicant. This maximum amount is set with reference to the prevailing cost of hearing assistive devices in the market.

12. If the device is a hearing aid, we propose that it must be purchased on the recommendation of qualified professionals in order to ensure that the applicant will benefit from the appropriate device that suits his need.

**(D) To add four new specified noisy occupations**

13. To be eligible for compensation under the Ordinance, claimants have to prove that they have worked for a minimum period of time in any of the specified noisy occupations. At present, there are 25 specified noisy occupations in Schedule 3 of the Ordinance. Having made reference to the

results of noise surveys conducted by the Labour Department in respect of 43 work processes/posts and a noise survey report of Singapore on disc jockeys, it is proposed that the list of specified noisy occupations should be expanded to include -

- (a) slaughterhouse employees working near the point of electrocution of pigs;
- (b) mahjong parlour workers employed wholly or mainly to play mahjong;
- (c) bartenders and waiters working near the dancing area in discotheques; and
- (d) disc jockeys working in discotheques.

**(E) To empower the Board to conduct or finance rehabilitation programmes**

14. It is noted that while occupational deafness is incurable, rehabilitation services may help deafness sufferers to overcome the obstacles caused by the disability at work and in life. It is proposed that the Board should be empowered to conduct or finance rehabilitation programmes for occupational deafness sufferers.

**(F) To disregard no-pay leave in determining a claimant's earnings**

15. In determining a claimant's earnings for the purpose of calculating the compensation payable, it is proposed that the Board should disregard no-pay leave taken with the consent of the employer during the last 12 months' of employment in aggregate. This will better reflect the average earnings of claimants and also fall in line with the current practice with regard to maternity leave and sick leave.

**THE BILL**

16. The main provisions of the Bill are -

- (a) **Clause 2** amends the long title of the Ordinance.

- (b) **Clause 4** amends section 5 to add two new functions of the Board.
- (c) **Clause 6** amends section 13 to add two new functions of the Occupational Deafness Medical Committee.
- (d) **Clause 9** adds a new Part VIIA which provides for the following matters concerning the reimbursement of expenses in relation to hearing assistive devices -
  - (i) entitlement to reimbursement of expenses (new section 27B);
  - (ii) limits of the amount of reimbursement of expenses (new section 27C);
  - (iii) application procedure (new section 27D);
  - (iv) determination of application (new section 27E);
  - (v) review of determination of application (new section 27F); and
  - (vi) payment of reimbursement of expenses (new section 27G).
- (e) **Clause 10** amends section 28 to provide for an appeal channel for an applicant who is dissatisfied with the result of the review of his application for reimbursement of expenses.
- (f) **Clause 11** amends section 30 to create an offence of providing false information in an application for reimbursement of expenses.
- (g) **Clause 12** adds a new section to provide for the priority of payment of compensation and reimbursement of expenses where there are insufficient funds to make all payments within the prescribed time limits.
- (h) **Clause 16** amends Schedule 3 to add four noisy occupations.
- (i) **Clause 17** amends Schedule 4 which sets out the percentage of permanent incapacity by reference to hearing loss.
- (j) **Clause 18** amends Schedule 5 to revise the minimum and maximum levels of compensation.
- (k) **Clause 19** creates a new Schedule 6 which prescribes kinds of hearing assistive devices for the purposes of the new Part VIIA, and a new Schedule 7 which prescribes the limits of reimbursement of expenses.

## **PUBLIC CONSULTATION**

17. The Board and the Labour Advisory Board have been consulted and agreed with the proposed amendments. The Legislative Council Panel on Manpower has also been consulted on the proposal.

## **BASIC LAW IMPLICATIONS**

18. The Department of Justice advises that the proposed legislation does not conflict with those provisions of the Basic Law carrying no human rights implications.

## **HUMAN RIGHTS IMPLICATIONS**

19. The Department of Justice advises that the proposed legislation is consistent with the human rights provisions of the Basic Law.

## **BINDING EFFECT OF THE LEGISLATION**

20. The amendment will not affect the current binding effect of the Ordinance.

## **FINANCIAL AND STAFFING IMPLICATIONS**

21. Enactment of the Bill itself will have no financial or staffing implication for the Government.

## **ECONOMIC IMPLICATIONS**

22. As the increased payments stemming from the proposed improvements to the Scheme can be met from within the levy rate on the employees' compensation insurance premium paid by employers, there should not be additional compliance cost on the part of the business sector.

**LEGISLATIVE TIMETABLE**

- (j) clause 18 amends Schedule 5 to the principal Ordinance to revise the minimum and maximum levels of compensation;
- (k) clause 19 creates a new Schedule 6 which prescribes kinds of

hearing assistive devices for the purposes of the new Part VIIA, and a new Schedule 7 which prescribes the limits of reimbursement of expenses.

**Adjustment of the maximum and minimum levels of compensation  
in accordance with the rate of increase in Nominal Wage Index**

- (1) The rate of increase in Nominal Wage Index (NWI) for the period from 1.1.1994 to 31.12.2001<sup>1</sup> is determined as follows -

The rate of increase in NWI for 1994	= +9.4%
The rate of increase in NWI for 1995	= +7.0%
The rate of increase in NWI for 1996	= +6.4%
The rate of increase in NWI for 1997	= +7.1%
The rate of increase in NWI for 1998	= +2.2%
The rate of increase in NWI for 1999	= -0.8%
The rate of increase in NWI for 2000	= +1.1%
The rate of increase in NWI for 2001	= +0.7%

The rate of increase in Nominal Wage Index for the period from 1.1.1994 to 31.12.2001

$$= [(1.094 \times 1.070 \times 1.064 \times 1.071 \times 1.022 \times 0.992 \times 1.011 \times 1.007) - 1] \times 100\%$$

$$= + 37.68\%$$

- (2) Adjustment of the minimum level of compensation in accordance with the rate of increase in Nominal Wage Index

$$= \$248,000 \times 137.68\%$$

$$= \$341,446$$

$$= \$341,000 \text{ (rounded to the nearest thousand dollars)}$$

---

<sup>1</sup> The Occupational Deafness (Compensation) Bill was first introduced into the LegCo in 1994 and so the current maximum and minimum levels of compensation were actually set with reference to the 1994 wage level. Therefore, the nominal wage increase from 1994 is taken as a yardstick in the adjustment of the levels of compensation.

(3) Adjustment of the wage threshold in accordance with the rate of increase in Nominal Wage Index

= \$15,000 x 137.68%

= \$20,652

= \$21,000 (rounded to the nearest thousand dollars)

(4) Adjustment of the maximum and minimum levels of compensation in accordance with the rate of increase in Nominal Wage Index

Age	Compensation amount	Maximum and minimum levels of compensation*
Under 40	96 x monthly earnings* x percentage of permanent incapacity	96 months' earnings but subject to a minimum amount of \$341,000 and a maximum amount of \$2,016,000 (i.e. the monthly earning is not more than \$21,000)
40 to under 56	72 x monthly earnings* x percentage of permanent incapacity	72 months' earnings but subject to a minimum amount of \$341,000 and a maximum amount of \$1,512,000 (i.e. the monthly earning is not more than \$21,000)
56 or above	48 x monthly earnings* x percentage of permanent incapacity	48 months' earnings but subject to a minimum amount of \$341,000 and a maximum amount of \$1,008,000 (i.e. the monthly earning is not more than \$21,000)
