

**LegCo Panel on Environmental Affairs and
LegCo Panel on Transport**

**List of follow-up actions arising from the discussion
at the joint meeting on 26 November 2001**

- (1) To provide a table showing the difficulties in respect of cost, income and emission etc which the 32% of PLB operators will experience in the event of switch to Euro III diesel and LPG light buses.
- (2) To provide the names of manufacturers of LPG light buses and the timeframe within which these light buses will be made available in the market to meet the surge in demand.
- (3) To advise the measures which the Administration will take to ensure a balance of interest among the manufacturers, owners and operators of PLBs upon the switch.
- (4) To provide a map showing the locations of the LPG refilling stations.
