

Subject: Against Hong Kong's Article 23, please forward

Hello,

I just signed against Hong Kong's Article 23. The article is a new proposed law that would allow HK government to arrest people under the name of revealing state secret, participating subversion of government, etc. It would permit searching without warrants, and would infringe upon freedoms of speech and assembly. In short, it will turn Hong Kong into Mainland China in a day. Please sign on as well at: Against Article 23 Legislation Online Signature Campaign:
