

Dear Sir or Madam,

I heard from the news report that Hong Kong government is going to pass the anti-subversion law (article 23). I think it is very dangerous not only for Hong Kong, but also for the whole world since Hong Kong is a very important city in the world. It will hurt not only the human rights, freedom of speech, freedom of expression, but also will hurt the economy of Hong Kong and other parts of the world.

Please try your best to stop the passing of the new law.

Sincerely

Jason Wang, Ph.D
