(Attn.: Mrs Queenie Yu)

Dear Mrs Yu,

Panel on Planning, Lands and Works

**Issues raised at LegCo Members' meeting with
Kowloon City District Council Members on 12 December 2002**

Thank you for your letter of 4 February 2003.

On the policy regarding the land use and planning for relocation of vehicle repair workshops to industrial sites, we have the following comments:

“The use of VRW is always permitted in existing industrial buildings. There are vacant industrial premises within existing industrial areas. Similar to other business operations, individual vehicle repair operators will take into account market demand to decide on whether to relocate their operations to industrial premises.”

Yours faithfully,

(LAM Wing-yuen)
for Secretary for Housing, Planning and Lands
