Dear sirs,  
As a citizen ,a professional engineer, an  
employee in the private sector in H.K., I  
totally support the government (HKSAR) to  
complete the Basic Law as suggested.  
In addition, irresponsible reports from media  
such as radio broadcast shall be included.  
I definitely feel the image and truth of of H.K.  
has been adversely distorted by these  
irresponsible "speeches".  
I agree and support the freedom of speech for all  
individual but the publicity of harmful (but  
untrue/dishonest ) is totally unacceptable.  
Especially these publication/speech is back up by  
foreign power or for the publication's benefit  
only.  
The media needs to be responsible for their  
dishonest/false propaganda.

Best Rgds,  
C K Kwok  
P.E.,CEng.
