re: Artical 23 of the basic law

*Dir Sir,*

*I'm writing to you with deep concerns over the suggestion of implementing Article 23 to the basic law(Consultation document, Security bureau, September 2002).*

*It is my true belief that this will threaten the freedom of Hong Kong's people and will be a sword hanging above the head of the rule of law, public confidence in the government and Hong Kong's relations with the free world.*

*I sincerely hope that the Hong Kong government will consider this matter from all angels and drop it down at the door step.*

*Yours sincerely*

*Oded Pnini, Melbourne Australia.*
