Subject: Proposed anti-subversion laws undermine HK's status

2002/12/23 08:58 PM

I write as a friend of HK and the people of mainland China.

The proposed laws - which have garnered huge protests in your streets - are no good for the economy of HK, no good for the people of HK - and undermine the push for Taiwan to return to the motherland.

Please, please reconsider.

Yours friends will continue to support you around the world if you maintain the true spirit of One Country, Two Systems.

Please do not undermine out commitment to this decent stance.

Andrew Casey
Sydney Australia
