Dear Ms. Ip,
RE: BASIC LAW (NATIONAL SECURITY) ARTICLE 23 LEGISLATION

Further to my letter dated 18th January, 2003, Art23, in the paragraph of:-

The consideration for the title and rights, for those person (AND OR PARTY ENCUMBRANCE), I think it is necessary for me to submit further more and example to my submission related to (AND OR PARTY ENCUMBRANCE).

In recent public media :-

A person in public media and interview made the submission opinions, arguments in related to Article 23, and invitation more citizen joint to speaks out . He have delivered in the media interview said sitting on the chair of the position and it is out of own control and or from own liberty for the act of delivery. This have imaged that the word from himself are not genuine and truth from his own, it consists of for and or on behalf and this is the (PARTY ENCUMBRANCE) among them there might have other person with the foreign nationality and or foreign nation passport holder.

The act of such it seems this is the professional habit mistakes, in court room have the right to do for and or behalf of party or defendant etc. but in public and deliver to media should genuine truth submissions of the own mouth.. Otherwise is putting the court room in public and media and invitation more joint to speak out in such case as my last letter submitted " IS CONSTRUCTING AN INSTRUMENT ", which can cause anything can happen.
