

**LegCo Panel on Transport  
Subcommittee on matters relating to railways**

**Supplementary information on provision of  
bicycle parking facilities at West Rail stations**

**Background**

At the Legislative Council Panel on Transport Subcommittee on matters relating to railways meeting held on 18 July 2003, Members discussed the paper on “Project Update of West Rail” (LC Paper No. CB(1)2203/02-03(01)) and asked the Administration to provide information on the provision of bicycle parking facilities in the vicinity of West Rail stations. This note provides supplementary information for Members’ reference.

**Bicycle parking provision at West Rail Stations**

2. According to the Hong Kong Planning Standards and Guidelines, bicycle parking facilities are recommended to be provided for future developments at railway stations where bicycle tracks are available and at residential developments where bicycle tracks with direct connection to railway stations are accessible.

3. In the planning of West Rail and the associated infrastructures, the Administration has included the provision of bicycle parking facilities in the vicinity of the railway stations taking into account passenger demand for such facilities. As shown in the Annex, about 2,300 bicycle parking spaces will be provided at the six West Rail stations in the town areas of Yuen Long, Tin Shui Wai and Tuen Mun where bicycle tracks are available. The Administration will continue to monitor the demand for bicycle parking in West Rail stations after the commissioning of West Rail.
