23rd February 2004

Dear Ms. Lee,

Re: Special Meeting Concerning Medical Device

- 1 We would like to point out that uses of diagnostic devices are currently government by Chapter 359 of Supplementary Medical Professions Ordinance.
- 2 About the Classification of medical devices, it should be determined by a committee consists of medical and health professions from both private and Government sectors in order to have a balance and complete view.
- 3 Persons using medical devices on their clients should have proper training and governed accordingly.

Regards,

Alex Li

Secretary
