Subcommittee on matters relating to railways**

**Shatin to Central Link  
Passenger Forecast of Whampoa APM  
Supplementary Information**

Based on the latest set of landuse data from Planning Department, the projected population in Whampoa area within the railway catchment will be about 96,000 in 2016, including the population intake at Hung Hom Bay area. KCRC estimates that there will be about 57,000 commuter and leisure passenger trips per day using the proposed Automated People Mover systems. About 14% of the trips will be between Whampoa and Hong Kong Island, and about 40% of the trips will be made between Whampoa and urban Kowloon.
