Dear Ms Yau,

Re : Subcommittee on Telecommunications (Designation of Frequency Bands subject to Payment of Spectrum Utilization Fee) (Amendment) Order 2004 (L.N. 208), Telecommunications (Method for Determining Spectrum Utilization Fees) (Third Generation Mobile Services) (Amendment) Regulation 2004 (L.N. 209) and Telecommunications (Level of Spectrum Utilization Fees) (Second Generation Mobile Services) Regulation (L.N. 210)

Thank you very much for bringing the captioned matter to my attention and inviting views from SUNDAY.

SUNDAY welcomes the final results of the renewal of GSM and PCS licences providing second-generation mobile services in the next decades. SUNDAY is pleased that the Government has been widely receptive to the industry concerns and made the right decision in reinforcing a 3G environment with a reasonable transition period to allow incumbent mobile operators to convert 2G customers to 3G services.

The spectrum utilization fees proposal also appears to be a reasonable approach striking a good balance between the interests of the Government, consumers and 2G licensees. SUNDAY hopes that the Government (particularly OFTA) would continue to listen to the industry concerns and help the industry to resolve any difficulty ahead.

Apart from the above remarks, SUNDAY does not intend to make any written submission to the Subcommittee or to attend the Subcommittee meeting on 12 January 2005.

Thank you for your attention.

Yours sincerely,  
 SUNDAY o/b Mandarin Communications Limited
