Subject LegCo Panel on Environmental Affairs - Meeting on 27 June
2005

Please find our submission as follows.

The Association is in support of the Implementation Plan for the Harbour Area Treatment Scheme Stage 2, and we have the following comments:

(1) The Administration should package the design agreements and construction contracts so as to maximize the use and to retain the local construction expertise and resources.

(2) The "Polluter Pays Principle" should be implemented with caution to avoid unfair double taxation on "Middle Class" in particular.

Association of Engineering Professionals in Society
June 2005

Should you have any queries, please feel free to contact me.

Regards
