Paper for the Bills Committee on Interception of Communications and Surveillance Bill

Definition of “Surveillance Device”

At the meeting of the Bills Committee on 1 June 2006, members considered the definition of “surveillance device” in Clause 2 of the Bill. A member expressed concern that the classes of surveillance device could be expanded by regulation by the Chief Executive in Council under Clause 62. The member expressed doubt if the regulation to be made by the Chief Executive in Council would extend the scope of the Bill, and instructed the Legal Service Division to find examples of similar existing legislative provisions.

2. A summary of the delegated powers, the delegated authorities and the manner in which the powers are to be exercised in existing legislation is at **Annex A**. The relevant provisions are at **Annex B**. We have categorized them into two types based on the nature of the delegated powers.
