

Legislative Council Panel on Commerce and Industry
The Applied Research Fund

INTRODUCTION

This information paper provides an update on the financial position of the Applied Research Fund (ARF) for the period of 1 September 2005 to 30 November 2005.

BACKGROUND

2. The ARF is a government owned venture capital fund of \$750 million set up in 1993 to provide funding support to technology ventures and research and development projects that have commercial potential. The longer term aim is to increase the technology capability and to enhance the competitiveness of the local industry, thereby promoting high value added economic development in Hong Kong. The ARF is controlled and administered by the Applied Research Council (ARC), a company wholly owned by the Government and formed specifically for this role.

3. With ARC engaging private sector venture capital firms as the ARF's fund managers since November 1998, the investments of the ARC fall into two categories: those which were processed by the then Industry Department (ID) and funded before the appointment of private sector fund managers, and those which were identified by fund managers and funded after the appointment of fund managers.

4. The Administration briefed Members on the application and management of the ARF at the Panel meeting on 11 December 2000¹, and undertook to provide quarterly written reports on the progress of the ARF. This paper provides the nineteenth quarterly report². In February 2003, the Administration also briefed Members on the review of the role and future of the ARF.³

CB(1)989/00-01, CB(1)1834/00-01, CB(1)939/01-02, CB(1)1232/01-02(04), CB(1)2185/01-02, CB(1)24/02-03, CB(1)582/02-03, CB(1)1415/02-03, CB(1)2008/02-03, CB(1)2522/02-03(01), CB(1)616/03-04(01), CB(1)1381/03-04(01), CB(1)2431/03-04(01), CB(1)2521/03-04(01), CB(1)598/04-05(01), CB(1)1128/04-05(01), CB(1)1991/04-05(01) and CB(1)2303/04-05(01).

³ Panel paper CB(1)844/02-03(04) discussed by the Panel on 10 February 2003 refers.

5. In April 2004, the Administration reported to the Panel the then latest situation of the ARF in the context of overall development framework for innovation and technology in future⁴. The Administration further briefed the Legislative Council in the context of a public hearing held by the Legislative Council Public Accounts Committee on 10 May 2004 regarding the funding of projects under the ARF as contained in chapter 2 of Report No. 42 of the Director of Audit tabled at the Legislative Council on 21 April 2004. On 23 June 2004, the Legislative Council Public Accounts Committee released its own report on the funding of projects under the ARF. In response, the Chief Secretary for Administration tabled the Government Minute on 20 October 2004.

6. On 18 January 2005, the Administration briefed Members on the review result of the ARF⁵. The Panel generally agreed to the winding down of the ARF as proposed.

LATEST DEVELOPMENT

I. Projects processed by the then ID

7. The ARC has approved 27 projects in this category with a total amount of \$97 million. As reported in the last update, among these 27 projects, ARC has exited from 22 projects in the form of loans fully repaid (9 cases), loans written off (8 cases), equities sold at net asset value (1 case), equities sold at nominal value (3 cases) and company dissolved (1 case). As a result, ARC has written off a total of some \$33.2 million or 34.2%⁶ of the total approved amount.

⁴ Paper ref. : CB(1)1470/03-04(05) titled "Strategic Framework for Innovation and Technology Development" discussed by the Panel on 13 April 2004 refers.

⁵ Paper ref. : CB(1)690/04-05(04) titled "New Strategic Framework for Innovation and Technology Development and Review of the Applied Research Fund" discussed by the Panel on 18 January 2005 refers.

⁶ In this report, the rounding of these two figures was done with reference to the total, instead of the individual items as in the previous reports.

8. Among the remaining five projects, ARC has provided support in the form of equity injection for one case and in the form of loans for the other four cases. During this reporting period, for the former case ARC is still holding shares in the concerned company, for the four loan cases, the companies/guarantors of three cases were repaying the loan, and legal proceedings were being taken for the remaining one case.

II. Projects funded through fund managers

9. Since the last update, the ARC has not made any new investment (with the expiry of investment period in end March 2005) or any follow-on investment. As at end November 2005, there were a total of 25 projects supported by the ARF through fund managers with approved funding of \$410 million. During the reporting period, the ARC has exited from two investments through redemption and sale of preferred shares respectively. Details of the 15 active investments⁷ are at **Annex A**. The sectoral distribution of these funded projects is at **Annex B**.

10. The latest valuation as at 30 September 2005 of all the 25 investments made by the fund managers stood at 45% of the corresponding total investments at cost. The main reasons for the below-cost valuation remain to be that our fund managers are still prudent in the valuation in view of the financial difficulties confronting some investee companies and the generally sluggish investment climate for technology businesses.

⁷ We reported in the paper of December 2000 (Ref: LC Paper No. CB(1)276/00-01(02)) that two investments had been written off, in the update of January 2002 (Ref: LC Paper No. CB(1)939/01-02) that one investee company had been wound up, in the update of June 2002 (Ref: LC Paper No. CB(1)2185/01-02) that one investee company was in the process of liquidation, in the update of October 2002 (Ref: LC Paper No. CB(1)24/02-03) that one investee company was in the process of liquidation, in the update of June 2003 (Ref: LC Paper No. CB(1)2008/02-03) that the shares in an investee company were sold at nominal value, in the update of July 2004 (Ref: LC Paper No. CB(1)2431/03-04(01)) that the shares in an investee company was sold to a NASDAQ-listed company, and in the update of March 2005 (Ref: LC Paper No. CB(1)1128/04-05(01)) that the shares in another company were sold. We have redeemed and sold the shares in another two company as covered in paragraph 9 of this paper. This means a loss of a total of \$145.74 million or 35.5% of the approved funding. Hence, a total of 15 investments are still active.

CONCLUSION

11. Members are invited to note this paper.
