Dear Miss Yeung,

Study on Public Broadcasting Services

On 17 January 2006, the Commerce, Industry and Broadcasting Bureau appointed an independent committee to review public broadcasting services (PBS) in Hong Kong. As PBS will be a key issue to be discussed and addressed in the forthcoming ITB Panel meetings, I propose the Research Division of this Council to conduct a research study on the overseas experience of PBS in a view to facilitate Members to have a better understanding on the PBS development of other countries.

With best regards,

Sin Chung-kai
Legislative Councillor (IT)
