Dear Sir,

HK has an historic opportunity to make something of it's waterfront. We have perhaps the greatest waterfront in the world and are unwilling to take advantage of the opportunity.

Most cities do not throw their gov't offices in the center of their busiest cities. We can reduce traffic and revitalize the surrounding areas of Kai Tak if the offices must be re-located. The government seems more interested in short term financial gains than what is in the best interest of it's citizens in the long run. I wish this wasn't so. The current plans are not what was promised and the entire project should be reconsidered.

Hopefully when reviewing the current plans, the legislature will take a long term view and do what is best for us in the long run.

Thank you,

David Friedland
