**Proposed timing  
for discussion**

**5. Reconstruction and Improvement to Tuen Mun Road**

To be confirmed

The Administration intends to take more time to discuss the way forward of the project with the Tuen Mun District Council, and will determine the exact timing for consulting the Panel in the light of the consultation process.

**6. Northwest New Territories Traffic and Infrastructure Review**

28 July 2006

The item was discussed on 22 April 2005. Members noted the merits of different packages of highway projects and urged the Administration for timely delivery of the highway projects.

**7. Possible Merger of MTR Corporation Limited and Kowloon-Canton Railway Corporation**

To be confirmed

Last discussed at the Panel meeting on 27 February 2004, following the announcement by the Administration on 24 February 2004 that the two railway corporations would be invited to commence negotiations on a possible merger.

A progress report was provided by the Administration in January 2006. The Administration has advised that it will report to the Panel the deliberation of the Government on the way forward once the outcome of the merger discussion has been reached.

**8. Employment arrangements for franchise bus drivers and safety of bus operation**

To be confirmed

This item is proposed by Mr WONG Kwok-hing. In recent years, with the Kowloon Motor Bus Company (1933) Limited taking the lead, some franchised bus operators have changed the employment terms for their bus drivers to contract terms and in some cases, the contract period only lasts for one year. Further employment of bus drivers upon expiry of their employment contracts is subject to review, resulting in a lack of job security for bus drivers. Mr WONG is concerned that the new employment arrangements would pose immense psychological pressure on bus drivers, which in turn would directly affect the safety of franchised bus operation.

**Proposed timing  
for discussion**

- 9. Exemption from regulation 53(2) of the Road Traffic (Traffic Control) Regulations (Cap. 374 sub. leg. G) for vehicles used for canvassing activities** To be confirmed

At the Subcommittee to Study Four Items of Subsidiary Legislation under the Road Traffic Ordinance, some members of the Subcommittee considered that the Administration should take a broader view and the proposed Amendment Regulations should aim at facilitating not only the float parades to be held at the Hong Kong Disneyland but also canvassing activities during elections. The Administration was of the view that the safety requirements for standing passengers on such vehicles went beyond the ambit of the then legislative amendments, but the Administration undertook to separately examine this proposal in detail.

- 10. Review of legislation governing failure to comply with traffic signals** Outside 2005-06 legislative session

At the Subcommittee on Proposed Resolutions under the Road Traffic (Driving-offence Points) Ordinance (Cap. 375) and the Fixed Penalty (Criminal Proceedings) Ordinance (Cap. 240), some members suggested and the Administration agreed to review the relevant legislation governing failure to comply with traffic signals after the new penalties had been effected. The Administration aims to complete the review by the end of 2006.

- 11. Safety of public light buses** 23 June 2006

The item was discussed by the Panel on 19 December 2005. The Panel will revisit the subject in June 2006 and the Administration has been requested to speed up the related work, and reported to the Panel progress of the various initiatives to enhance safety of PLB operations.

- 12. Measures to rationalize utilization of Build-Operate-Transfer tunnels** To be confirmed

The item was discussed by the Panel on 19 December 2005. The

**Proposed timing  
for discussion**

Panel urged the Administration to speed up the work to improve the distribution of traffic among the three road harbour crossings and enhance the utilization of Route 3, including the discussions with the operators of the Eastern Harbour Crossing, Western Harbour Crossing and Route 3.
