

**Bills Committee on
Energy Efficiency (Labelling of Products) Bill**

**List of follow-up actions arising from the discussion
at the meeting on 14 February 2008**

- (1) To ensure that the size of the energy label, particularly in respect of compact fluorescent lamp, is large enough to accommodate additional information on the year in which the reference number is assigned.
- (2) To reconsider the need for and the propriety of the proposed Committee Stage amendments under clause 4(1A).
- (3) To consult the trade on the feasibility of applying a transitional period within which supply of prescribed products with the original energy labels can be allowed following an updating of energy efficiency grading, after which new energy labels in accordance with the new energy efficiency grading standards should apply.
