

(a) the criteria for making nominations and appointments to the CityU Council

The existing Council membership is composed of three categories of Council members. Category (1) is appointed by their capacities at the University. Category (2) comprises lay members appointed by the Chief Executive, of whom not more than 9 are recommended by the Council (Category 2(ii)). Category (3) is staff members from Senate and staff election. With regard to category (2)(ii), the Council agreed at its March 2004 meeting that a Nominations Committee be formed to recommend individuals for membership of Council. It is intended that the Nominations Committee will be formed when the proposed changes to the Council composition are approved by the Legislative Council. At present, Category (2)(ii) is considered and recommended by the Executive Committee of the Council to the Chief Executive.

In making their recommendations, the Executive Committee is mindful that external members should bring their expertise to the Council in support of the Mission of the University. Since the Mission emphasizes the provision of professional education programmes and that the University should concentrate on applied research, the Council seeks external members who from their knowledge and experience can contribute to these aims. The Executive Committee therefore bears this in mind when seeking to appoint individuals drawn largely from commerce, industry, the community and the professions.

(1) Members through their capacities in the University

- the President;
- the Deputy President;
- not more than 4 Vice-Presidents nominated by the President and appointed by the Council;
- Not more than 5 Deans of the faculties or such office holders in an equivalent body of the University nominated by the Senate and appointed by the Council;
- the Chairman of the Convocation; and
- the President of the Students' Union.

(2) Members appointed by the Chief Executive

- not more than 3 public officers appointed by the Chief Executive;
- Not more than 18 members who are not public officers or employees of the University of whom :
 - (i) not less than 10 have experience in commerce or industry in Hong Kong;
 - (ii) not more than 9 are appointed by the Chief Executive on the recommendation of the Council;
 - (iii) 9 are appointed by the Chief Executive;

(3) Elected members

- an academic member of the Senate nominated by the Senate and appointed by the Council;
- 2 members of staff elected from among their number and appointed by the Council;

CITY UNIVERSITY OF HONG KONG 香港城市大學
Council members 校董會成員 (2001 – 2006)

- (b) the membership of the CityU council for the past six years with background information on individual members including their occupations, records of public services, and years of service in the CityU Council 城大校董會過去 6 年的成員組合，連同每名成員的背景資料，包括其職業、公職紀錄，以及在城大校董會的服務年資

(Prepared by City University of Hong Kong 由香港城市大學提供)

(d) any measures taken to enhance accountability, transparency and openness of the CityU Council since the publication of the Public Accounts Committee Report No.40A concerning, inter alia, the governance of University Grants Committee-funded institutions.

With a view to improving corporate governance, the University Council responded positively to the recommendations in the UGC Higher Education Review Report, referred to as the Sutherland Report (March 2002), and established a Review Committee on University Governance and Management in November 2002 to undertake a rigorous and comprehensive review on the governance of the University.

Members of the Review Committee were as follows:

Chairman : The Hon Mr Justice Patrick Chan
Members : Mr Victor Cha
 Mr Vincent Chow, JP (Council member)
 Mr John Lee, JP (Council member)
 Sir Eric Ash, CBE, FREng, FRS (special member)

The Report of the Review Committee covers in detail issues related to good governance such as reviewing the structure of the Council and its Committees to ensure that it has an appropriate structure which can enable it to perform its governing and monitoring role effectively and efficiently. The Report also explored means of ensuring that external members of the Council were in a clear majority. The recommendations of the Report were thoroughly deliberated and approved by the Council in November 2003 and an Implementation Committee was established to follow up the recommendations. Reports on the progress of implementing the recommendations have been made as and when required by the Administration. Many of the changes recommended by the Council's Review Committee were intended to attain good corporate governance, as pointed out in the Public Accounts Committee Report No. 40A. In particular, the recommendations have sought to ensure that external members will constitute a majority at the Council meetings (and in those of the Council Committees). The recommendations also seek to ensure a high attendance of external members of Council and to introduce measures to enhance accountability, transparency and openness of the Council.

The present proposed Bill to amend the University Ordinance (viz. to reduce the size and change the composition of the Council to ensure that there is a clear majority of lay members) was to give effect to the restructuring of the University Council to ensure that the structure of the Council and its Committees was 'fit for purpose' in supporting its role of setting the strategic directions of the University and monitoring the performance of the institution to ensure that its development and focus are in line with the strategic directions set by the Council. The details of the changes are presented in the proposed Bill and are not repeated here.

Following the advice of the Review Committee, the Council has also approved a Code of Practice for Council members to provide guidance on, inter-alia, the conduct of Council business. The Code highlights several important issues including the need to review the effectiveness of the Council and the Institution and to support the principle of openness and transparency in the operation of the Council (issues which were also raised in the PAC Report No. 40A).

The respective measures taken are briefly summarized below:

Accountability

To increase effectiveness and accountability, the Council has adopted the following measures:

Fitness for purpose Review

CityU has completed a review of the effectiveness of its governing body in November 2003 and agreed to conduct a similar review in future on a periodic or needs basis.

The Council's Code of Practice clearly states that:

“The Council should review both its own effectiveness and the University's performance at regular intervals. The review of performance should take into account the views of the Senate, and should be reported upon appropriately within the University and outside.”

Audit Committee

CityU set up an Audit Committee under the Council in 2004. To maintain impartiality, the Committee comprises only external Council members and is charged with the following responsibilities:

- (a) to monitor the executive decisions of the management of the University in relation to the mission and strategic directions set by the Council;
- (b) to monitor compliance with the agreed procedures of the University;
- (c) to commission value for money audits as appropriate;
- (d) to approve the annual work plan of the Internal Audit Unit and to review the Unit's reports and findings;
- (e) to make recommendations to the Council on the appointment of Auditors and to oversee the annual financial audit of the University accounts;
- (f) to review and advise the Council on the procedures that are in place to prevent and to investigate fraud and any other financial irregularities; and
- (g) to review regularly the risk management policies of the University.

Council Composition

The Review Committee on University Governance and Management believed that, given a greater involvement of the Council in planning the future direction of the University, its size should be reduced and that such a reduction should be accompanied by a shift in the balance of membership towards external members. Therefore, the Review Committee recommended that the Council membership should be reduced to a total of not more than 20 members and there should be a clear majority of external members. It recommended that this could be

achieved by reducing the number of internal members to five. The Council approved the proposed revisions to the Ordinance to effect these changes. The proposed amendments to the relevant clauses of the Ordinance have been submitted to the Legislative Council in the form of a Member's Bill.

Restructuring of Council Committees

The Council has approved the restructuring of its committees to ensure that Council business, in future, would be concerned more with the overall mission and strategic direction of the University rather than its operational details. The restructured Council committees which came into operation in the academic year of 2004/05 comprise a majority of lay members of the Council which means that most lay members will serve on more than one Council committee. This enables the University to extend the involvement of the external members in more aspects of the work of the University. The University will continue to explore means to involve external Council members more fully in the development and activities of the University, and to provide opportunities for them to promote the work of the University within the community.

Transparency, Openness

In the Code of Practice, there is a section concerning the "Principle of Openness and Transparency in the Operation of the Council" (para 5.12):

"In general the principle of openness applies to the operation of the Council and students and staff of the University have access to information about the proceedings of the Council. The Council Secretariat issues a summary report of Council meetings in the University newsletter. The agenda, draft minutes, if cleared by the Chairman, and the signed minutes of Council meetings, together with the papers considered at meetings, are made available for inspection in the University Library.

There may, however, be matters, covered in the rules and procedures, where it is necessary to observe confidentiality. Such matters are likely to concern individuals or have a 'commercial' sensitivity.

The University's annual report and financial statements are made widely available outside the University, and the Community Relations Committee of the Council and the Court seek ways by which the public, or the local community, can comment on matters to do with the University that concern them."

The University is aware of the growing need for transparency and agreed to publish the attendance records of its Council Members in its Annual Report in addition to the previous measure of having the attendance records of Council Members made available to the Administration upon request.
