Action

**I. Meeting with deputations and The English Schools Foundation**  
[LC Paper Nos. CB(2)2780/06-07(01) and CB(2)2797/06-07(01) - (03)]

The Bills Committee deliberated (index of proceedings at **Annex**).

Oral presentation

2. The Bills Committee received 10 organizations and one individual to present views on the Bill.

[*Post-meeting note* : A summary of the views of the organizations and individual is in LC Paper No. CB(2)204/07-08(02).]

The English Schools Foundation's response

3. Mrs Heather Du Quesnay provided the following response -

*Objects of the Foundation*

(a) The English Schools Foundation (the Foundation) was fully committed to achieving its objects as set out in the English Schools Foundation Ordinance (the Ordinance), and had been providing quality education for English-speaking students including those with SEN. The Foundation recognized the need to improve the provision of integrated education and special education for students with SEN. The Foundation had taken steps to implement the recommendations of the review in this regard, formulated a policy on special educational needs and developed a system to assess the degree of inclusion of individual schools on the basis of feedback from teachers and parents. In last year, three Learning Support Classes had been set up. The proposal to include a legal requirement in the Bill for the Foundation to provide education for students with SEN failed to appreciate the diversity of skills, training, equipment and resources imposed on the Foundation. The proposal would also place the Foundation in an unfair position vis-à-vis other schools which had not faced the imposition of such a legal requirement.

*Composition of the Board of Governors*

(b) The Foundation had thoroughly consulted and discussed with the key stakeholders before coming up with the proposed composition of the Board of Governors (the Board). The proposed composition would maintain a balanced representation from the stakeholders in the Foundation and the community. The Foundation agreed on the need to retain representation from the Legislative

Action

Council (LegCo) and from the Government in the Board. The removal of LegCo representation and the addition of one representative from parents of students with SEN might affect the good balance in the Board as staff and parent representatives together would then make up 12 of the 25 voting members in the Board. This might not address the concern raised by the Director of Audit and the Public Accounts Committee that there had been a history of Foundation meetings being dominated by people with a personal interest in the issues discussed.

(c) The function of the Nominating Committee was to nominate persons from different sectors of the community to serve as members of the Board. The Foundation had all along had members from the business community sitting on its governing structure. This would ensure that the Foundation was in touch with the community and had members with the expertise in running organizations. The Foundation was confident that the Hong Kong General Chamber of Commerce and the British Chamber of Commerce in Hong Kong would consult their member organizations and professional bodies in recommending suitable persons for appointment as members of the Board.

4. Professor Felice LIEH MAK said that the proposals in the Bill were drawn up after extensive consultation with the stakeholders including staff and parents, and should not be amended lightly because of dissatisfaction arising from isolated incidents. The proposed amendments to the Bill would create an insurmountable burden on the Foundation.

Implication of the proposed amendment to the objects of the Foundation

5. Senior Assistant Legal Adviser 2 quoted a case law in 2004 to explain that the Foundation was a public body and its decisions were subject to judicial review. He advised that the Court would take into account three factors in considering an application for judicial review of a decision, namely the legal basis for the decision, procedural regularity and reasonableness of the decision. With or without the proposed amendments to include "without regard to disability or SEN" to the objects of the Foundation, the Foundation's acts were subject to the Disability Discrimination Ordinance. The proposed amendments would not impose a statutory duty on the Foundation but the express provision of offering education without regard to disability or SEN of students would be a guiding principle for the Foundation.

Members' views

*Objects of the Foundation*

6. Dr Fernando CHEUNG said that the Foundation and its schools had been providing quality education for students with SEN. His proposed amendment to the objects of the Foundation would lay down in the law the spirit upheld and the

Action

commitment made by the Foundation in providing quality education to students with SEN. He stressed that in proposing the amendment, he had not had the slightest intention of creating an insurmountable burden to the Foundation.

7. Mr Abraham SHEK did not support Dr Fernando CHEUNG's proposed amendment because he did not consider it necessary to put down in law the spirit to provide quality education to students with SEN.

*Composition of the Board of Governors*

8. Mr Tommy CHEUNG considered it inappropriate and unnecessary to have LegCo representation in the Board. He pointed out that with or without LegCo representation in the Board, the use of public fund by the Foundation would be monitored, and staff of the Foundation and parents of students of its schools could approach LegCo Members on matters relating to the Foundation. Moreover, LegCo was not represented in other school sponsoring bodies.

9. Mr Albert CHENG said that as one of the Members elected from the LegCo to serve on the Foundation, he did not consider that he had played an active role in the past. However, as the Board would comprise 25 voting members under the Bill instead of over 100 now, the role of LegCo might be more prominent and its representation might become necessary. He indicated support for the addition of a representative from parents of students with SEN in the Board on the ground that these parents warranted special consideration.

10. Miss TAM Heung-man supported LegCo representation in the Board because the Foundation was subvented by public fund and the use of public fund should be monitored. She also indicated support for the addition of a representative from parents of students with SEN in the Board.

11. Mr Abraham SHEK supported the principle of equity but considered that parents of students with SEN should warrant compassion. He supported the addition of a representative from parents of students with SEN in the Board as this would facilitate other Board members to understand the problems and difficulties experienced by these parents. He was open on the issue of corporate representation in the Nominating Committee.

Follow-up

12. Members requested the Legal Adviser to the Bills Committee to advise in writing the implications of stipulating in the objects of the Foundation to, inter alia, offer education without regard to disability or SEN of students. Ms Audrey EU requested that the legal advice should also highlight the resource implications and the impact on student admission by the Foundation's schools.

Action

**II. Any other business**

13. Members agreed to hold the next meeting at 8:30 am on 5 November 2007.
14. There being no other business, the meeting ended at 4:30 pm.
