Policies on sustainable urban development and green buildings

Prof Hon Patrick LAU Sau-shing moved the following motion and addressed the Council:

That, in view of the United Nations' earlier warning that within this century, global warming will cause hundreds of millions of people to face disasters such as fresh water shortage, famine, flooding, diseases, and the rise in sea level will even pose a threat to the coastal lands in Asia including the Pearl River Delta region, from which Hong Kong can hardly be immune; in order to alleviate the greenhouse effect arising from imbalanced urban development and to eliminate the adverse effects of undesirable high-density building developments on weather and the environment, this Council urges the Government to expeditiously formulate and implement policies on sustainable urban development and green buildings, including:

- (a) reviewing the existing legislation relating to urban planning and buildings, and introducing sustainable planning and green building principles;
- (b) studying the formulation of a Code of Practice for introducing a "green building labelling" system, and fully assessing the environmental performance of buildings during the design stage and after their being put to use on the basis of energy efficiency, greening ratio, air ventilation, renewable energy, household waste treatment and design parameters which are conducive to good weather and urban environment; and
- (c) the Government and public organizations taking the lead in fully applying the relevant policies to both new and existing public buildings, educating the public, and offering incentives to actively promote market compliance,

so as to alleviate the impact of global warming on Hong Kong and to build a pleasant city which is sustainable through the implementation of policies on urban development and green buildings that are conducive to good weather and environment.

Safeguarding the safety of live and fresh food

Hon TAM Yiu-chung moved the following motion and addressed the Council:

That, as the Mainland Government has, with effect from 1 April this year, strengthened its inspection and quarantine management system for vegetables supplied to Hong Kong, including designating supply farms, implementing label identification and lead-seal control, and regularizing certification and voucher management, etc, and such requirements will be extended to fruits and melons on 1 July and 1 October respectively; furthermore, quarantine and seal identification measures for vessels carrying fresh water fish from Guangdong Province to Hong Kong have also been enforced since 1 May, so as to eradicate the smuggling of fish into Hong Kong; however, the Hong Kong SAR Government has not yet made any complementary import quarantine arrangements, nor has it publicized the Mainland Government's new regulations to the

public, hence making it possible for unscrupulous traders to exploit Hong Kong's import quarantine loopholes and bring unquarantined live and fresh food into the territory for sale in the market, thereby endangering the public's health, this Council urges the Government to expeditiously adopt measures to complement the Mainland's new management regulations for food supplied to Hong Kong, and fully safeguard the safety standards of live and fresh food in the territory, including:

- (a) enacting a food safety law to bring live and fresh food such as vegetables and fruits, aquatic products and poultry eggs, etc, into the regulatory ambit, prescribing relevant food safety standards and enforcing import quarantine at border control points, so as to ensure the safety of imported live and fresh food;
- (b) implementing a food importer registration scheme and requiring food importers to keep their import and sales records, so as to enhance the enforcement authorities' ability to trace the sources and destinations of food;
- (c) disseminating information about the new regulations promulgated by the Mainland Government and the list of designated food supply bases to the trade, and uploading such information onto the Government's website, so as to enhance the awareness of the trade and the public; and
- (d) strengthening liaison with the local trade to assess the impact of the new regulatory measures implemented by the Mainland and Hong Kong on the operations of the trade, and assisting the trade in making adaptation;

besides, the Government should also assist in improving the mode of operation of local agricultural and breeding farms, so as to increase the supplies of safe and high quality local agricultural and fishery products.

Question on Hon TAM Yiu-chung's motion proposed.

The President stated that Hon Vincent FANG Kang and Hon Fred LI would move amendments to the motion and that Hon Tommy CHEUNG would move an amendment to Hon Fred LI's amendment. In accordance with the Rules of Procedure, the motion, the two amendments and the amendment to amendment would be debated together in a joint debate.

Hon Vincent FANG Kang, Hon Fred LI, Hon Tommy CHEUNG and Hon WONG Kwok-hing spoke on the motion and the amendments.

Question on Hon Vincent FANG Kang's amendment to Hon TAM Yiu-chung's motion proposed, put and agreed to.

The President stated that Hon Tommy CHEUNG had indicated that he would withdraw his amendment to Hon Fred LI's amendment if Hon Vincent FANG Kang's amendment was agreed. Hon Tommy CHEUNG had therefore withdrawn his amendment.

As Hon Vincent FANG Kang's amendment had been agreed, the President granted leave for Hon Fred LI to revise the terms of his amendment and explain them to the Council.
