However, there were seven cases (involving 14 Mainlanders) in which Mainlanders were prosecuted in Hong Kong for corruption and / or related offences that involved enquiries conducted in the Mainland under the Mutual Case Assistance Scheme.

Question : Please provide a detailed list of the work undertaken by the Technical Services Division in 2006-07, including the types of support services it has provided.

Asked by : Hon TO Kun-sun, James

Reply : The main role of the Technical Services Division is to provide technical support to the Operations Department of the ICAC in the investigation of corruption. To disclose details of its work will inevitably compromise the efficiency and effectiveness of the ICAC investigative work. It is hence not in the public interest to disclose such details.
