

LC Paper No. CB(2)1483/06-07(01)

United Christian Hospital Doctors' Association

Dr. Hon. Kwok Ka-ki
Medical sub-sector
Legislative Council

28th March 2007

Dear Dr. Kwok,

Re: KEC budget situation

Representing medical staff of the United Christian Hospital, we would like to draw your attention to the fact that we are the only two clusters in Hong Kong with deficit budget in the year 2007-8.

While we are committed to provide quality medical service to residents of the Kwun Tong district, members of our association are concerned that such a tight budget situation will affect our level of service with added workload to the existing fully stretched manpower level. It will also be detrimental to our staff morale which has long been raised as a prime concern of the Hospital Authority.

We know that you will be representing our interest in the coming Health Panel meeting of the Legislative Council and we are looking forward to your help in reflecting our concern to the Hospital Authority and other Health Panel members.

Yours truly,

Wilfred C W Leung
Chairman
UCHDA
