

**Public Works Subcommittee Meeting on 30 November 2007
Issue Requiring Follow-up Actions by the Administration**

Item PWSC(2007-08)54

Issue At the request of Hon Emily LAU, the Administration agreed to report on the outcome of discussion with the works department concerned on the provision of a continuous footpath along the harbourfront between the proposed park and the Shun Tak Centre in due course.

Response

We have discussed the matter with the departments concerned and agreed to the proposal. Members of the Central and Western District Council have been consulted and they have given their in-principle support for the proposal. Planning work for providing the coastal footpath is now underway to tie in with the completion of the Sun Yat Sen Memorial Park in 2011.
