"Co-location" of immigration and customs facilities at Hong Kong International Airport

To be confirmed

In order to enhance the competitiveness of the Hong Kong International Airport, views had been expressed that the Government should liaise with the Central People's Government and the relevant authorities with a view to implementing "co-location" of immigration and customs facilities at Hong Kong International Airport.

At the Panel meeting on 24 January 2005, the Administration advised that co-location of immigration and customs facilities at cross-boundary control points involved complex legal and jurisdiction issues. There was no plan to provide co-location of immigration and customs facilities at SkyPlaza.
