

For information

Legislative Council Panel on Financial Affairs
The Loan Guarantee Scheme
for Severe Acute Respiratory Syndrome Impacted Industries

Introduction

This paper briefs Members on the progress of the implementation of the Loan Guarantee Scheme (“the Scheme”) for Severe Acute Respiratory Syndrome (“SARS”) Impacted Industries.

Background

2. At the Finance Committee meeting held on 25 April 2003, the Administration undertook to report to the Panel on Financial Affairs (“the Panel”) on the operation of the Scheme one year after its implementation and to submit progress report at six-monthly intervals thereafter. Seven reports have since been circulated to Members for information in May and November 2004, April and October 2005, May and November 2006 as well as May 2007. This is the eighth progress report.

Latest Financial Situation

3. As at 30 September 2007, the outstanding loan amount has been reduced to \$452,855 as against the aggregate loan amount of \$499,204,781 approved at the close of applications on 31 July 2003.

Default Situation

4. As at 30 September 2007, lending institutions made 162 claims totalling \$31,384,828 for Government’s guarantee in respect of the default loans made under the Scheme. Payments had been effected to all these claims. Of the 162 claims, 87 (53.7%) came from the retail sector, 72 (44.4%) from the restaurant sector and three (1.9%) from the tourism sector. A breakdown of the claims by industry is at Annex.

Recovery Situation

5. Recovery actions on the 162 default loans have been taken against the borrowers or the guarantors as appropriate. So far, full repayments have been received for nine default cases while repayment agreements have been reached in 64 other default cases. In cases with repayment agreements reached, the borrowers/guarantors mostly agreed to repay the outstanding loans by instalments over an extended period. As at 30 September 2007, a total sum of \$5,807,833 has been recovered and returned to the Government.

Submission of Progress Report

6. The Administration will continue to monitor closely the operation of the Scheme. Another progress report on the Scheme will be submitted to the Panel in six months' time.
