Dear Ms. Yuen,

**Follow-up actions arising from
Meeting of LegCo Panel on Housing on 3 December 2007**

Thank you for your letter dated 6 December. At the meeting of the Panel on Housing on 3 December, the Administration undertook to provide information on the lift installation plans for public housing blocks currently without lift services after the meeting.

At present, there are 32 public housing blocks without lift services in the territory, all of which are located in aged housing estates. In recent years, the Housing Department has been actively studying the feasibility of installing lifts at these blocks for the convenience of tenants. Installation works at some blocks have already commenced. The housing estates involved and the details of the installation plans are set out at the Annex.

Yours sincerely,

(Vic C H Yau)
for Secretary for Transport and Housing
