Internet services due to earthquakes near Taiwan on 26 and 27 December 2006.

The Administration/OFTA was requested to provide after the meeting a detailed written submission on OFTA's contingency plan in response to emergency and its mechanism for disseminating information to consumers in the event of disruptions in IDD and Internet services. The Administration was also requested to provide information on the damages and losses suffered by small and medium enterprises (SMEs) as a result of the Incident and on the specific measures to be taken by the Administration to help SMEs impacted by the internet outage during the Incident and in future. Subject to the information provided by the Administration/OFTA, the Panel may re-visit the subject and may consider inviting deputations including the Consumer Council to present views on the subject if necessary.

5. Progress update on the implementation of the Unsolicited Electronic Messages Ordinance (UEMO) (Cap. 593)

The second phase of the UEMO, as well as the Unsolicited Electronic Messages Regulation, came into operation on 22 December 2007. The Administration will update the Panel on the progress of the implementation of the UEMO.

Broadcasting

6. Coverage and availability of domestic free and/or pay television programme services

Proposed by Hon Albert CHAN. At the meetings on 12 October 2006, 16 October and 12 November 2007, Hon Albert CHAN expressed concern that under the existing policy guidelines, domestic free television programme service licensees would normally be exempted from serving those areas where the populations affected by poor television reception were below 2 000 persons within an area of a radius of three kilometers and as such, the services are not made available to some villages with populations of about 500 persons. He was also concerned that some areas on Lantau Island still have no pay television services coverage.

information paper to update the Panel on developments.

8. Review of the broadcasting regulatory regime (*)

In the light of technological and market convergence in the electronic communications sector, the boundaries between telecommunications, broadcasting and information technology are blurring. Some old concepts adopted for the regulation of broadcasting may become obsolete in the converging environment. Just like other jurisdictions, Hong Kong needs to update the regulatory regime in the light of latest technological and market developments to ensure that its framework remains conducive to the further development of the broadcasting industry in particular and the electronic communications industry in general.

The Administration will provide an information paper to update the Panel on developments.

Film

9. Progress update on the implementation of Film Development Fund (*)

Last discussed on 17 April 2007. The Panel has given support to the Administration's proposals to support the local film industry, including an injection of \$300 million into the Film Development Fund (FDF) and the creation of the Secretary General of Film Development Council (SG/FDC) at D2 level on a permanent basis. The staffing proposal was subsequently amended by the Administration in view of members' comments made at the meeting of the Establishment Subcommittee on 13 June 2007. The \$300 million injection to FDF and the staffing proposal to create the SG/FDC post on non-civil service contract basis were approved by the Finance Committee on 6 July 2007. The Administration will report to the Panel on the progress of the implementation of FDF.
