Community support services provided for the discharged ex-mentally ill persons in the New Territories west region

Castle Peak Hospital has strengthened the community support services for the discharged ex-mentally ill persons to help them re-integrate into the community. The total number of home visit and outreach attendance (including crisis intervention) has progressively increased over the past few years:

Year	2004	2005	2006	2007
No. of home visit and outreach attendance (including crisis intervention)	18,858	19,823	19,807	20,668

Hospital Authority
