## **Members' Motions**

### Alleviating the disparity between the rich and the poor and assisting the grassroots in facing up to economic adversities

Hon Frederick FUNG moved the following motion and addressed the Council:

That, as the growth in Gross Domestic Product for the third quarter has slackened to 1.7%, the effects of the financial tsunami have gradually surfaced, the risk of the economy entering into recession has substantially increased, layoffs and pay cuts take place one after another, the unemployment rate has rebounded but there is no notable downward adjustment in the prices of goods, causing people's livelihood to become more difficult; moreover, a latest report of the United Nations points out that Hong Kong ranks first among all Asian cities in the disparity between the rich and the poor, with the Gini Coefficient which reflects the inequality of income distribution rising to a record high of 0.533, indicating that the disparity between the rich and the poor is increasingly serious, this Council therefore urges the Government to re-establish the Commission on Poverty to explore and recommend focused measures to assist the grassroots in facing up to economic adversities and to formulate comprehensive and long-term policies to effectively allocate community resources and narrow the gap between the rich and the poor, thereby protecting the basic livelihood of the grassroots and promoting harmonious social development.

Formulating new policies on public and public housing estate markets

That, as the Administration's approach in planning and managing public and public housing estate markets is very outdated, hence all along it is unable to boost customer flows effectively, and has even resulted in serious vacancy situation in some public and public housing estate markets, this Council urges the Administration to immediately formulate policies on public and public housing estate markets which meet the needs of a modern society, and particularly in view of the recent economic downturn and the worsening trend of the unemployment rate, it is necessary for the Administration to expeditiously enhance the competitiveness of public and public housing estate markets, and assist small traders in these markets in countering monopolization by supermarkets, so as to benefit the grassroots; the measures include:

- (a) actively allocating resources to improve the business environment of markets, such as installing additional air-conditioning systems and escalators, thereby boosting customer flows to bring about long-term return;
- (b) analyzing in depth, from a market perspective, the needs of the districts to which the markets belong, and planning afresh the sizes, types of commodities sold, layout of stalls and ancillary measures of individual markets;
- (c) adopting proactive letting policies, such as offering short-term rent concessions to improve the situation of low occupancy and striving to assist traders in the markets in introducing new types of commodities or services, so as to inject new elements into the markets and bring into play their characteristics of trade mix; and
