**Motion on
“Promoting medical check-up for the whole community”
to be moved by Hon CHAN Kin-por
at the Legislative Council meeting
of Wednesday, 11 March 2009**

Wording of the Motion

That, as the population of Hong Kong is ageing, which will exert great pressure on the healthcare system, yet the general public often neglect the importance of undergoing regular medical check-up and do not seek medical consultation until their clinical conditions have worsened, which will not only affect their chance of being cured, but also substantially increase the public healthcare expenditure; this Council urges the Government to comprehensively plan afresh policies on prevention of non-communicable diseases and health promotion, including:

- (a) expeditiously studying the provision of regular basic medical check-ups for Hong Kong residents gradually and systematically, so as to prevent diseases through early diagnosis and treatment;
- (b) at the same time, formulating suitable medical check-up plans for different high-risk groups; and
- (c) promoting healthy living and health education to encourage the public on all fronts to do more exercise, so as to enable Hong Kong to develop into a genuinely healthy city.
