**Council meeting of 10 June 2009**

**Motion on  
“Improving environmental hygiene in the community”**

Hon IP Kwok-him has given notice to move the attached motion on “Improving environmental hygiene in the community” at the Council meeting of 10 June 2009. The President has directed that “it be printed in the terms in which it was handed in” on the Agenda of the Council.

( Mrs Justina LAM )  
for Clerk to the Legislative Council

Encl.

(Translation)

**Motion on  
“Improving environmental hygiene in the community”  
to be moved by Hon IP Kwok-him  
at the Legislative Council meeting  
of Wednesday, 10 June 2009**

**Wording of the Motion**

That, as the environmental hygiene conditions of some communities in Hong Kong are poor and hygiene blackspots are everywhere, which have aroused public concern, coupled with the threat of a new strain of influenza, this Council urges the Government to focus on the problem and take effective measures to ensure a clean community environment and enhance public awareness of hygiene, including:

- (a) formulating community environmental hygiene indices for the 18 districts to enable members of the public to understand the environmental hygiene conditions in various districts;
- (b) studying the provision of funds to District Councils to assist buildings without owners' corporations in carrying out work to eliminate hidden hygiene hazards in the communal areas of such buildings;
- (c) recruiting additional staff and enhancing the training for frontline personnel responsible for cleansing and epidemic prevention work, so as to ensure that the personal protection of frontline personnel is safeguarded and that public health and epidemic prevention work is effectively carried out;
- (d) organizing on a yearly and regular basis territory-wide clean housing estate competitions, and encouraging tenants of public housing as well as owners and management companies of private buildings to pay attention to environmental hygiene in housing estates;
- (e) initiating a territory-wide campaign on reporting hygiene blackspots;
- (f) by making reference to the arrangement of rest days for market cleansing, specifying a monthly cleansing day for households and communities across the territory, and through such activities, educating the public on the awareness of keeping their homes and the community clean;
- (g) setting up volunteer work teams in various districts to pay regular visits to the elderly who live alone to carry out cleansing work in their homes; and
- (h) stepping up hygiene education for the public, especially focusing on secondary and primary school students, so as to enable them to develop good hygiene habits from a young age.
