**Speech by the Secretary for the Environment  
at the Legislative Council on 22 April 2009**

**Product Eco-responsibility Ordinance (Cap. 603)**

**Product Eco-responsibility (Plastic Shopping Bags) Regulation**

President,

I move that the Motion under my name, as printed on the Agenda, be passed. The proposed resolution is to approve the Regulation that provides for the implementation details of the environmental levy scheme on plastic shopping bags under the Product Eco-responsibility Ordinance.

2. The Product Eco-responsibility Ordinance was enacted by the Legislative Council in July 2008. The Ordinance is a piece of “framework” legislation that provides a legal basis for implementing producer responsibility schemes in Hong Kong. It is a milestone in the environment agenda and very much reflects the importance and urgency that the Legislative Council and the community attach to environmental protection in general and sustainable waste management in particular.

3. The environmental levy on plastic shopping bags is the first producer responsibility scheme to be implemented under the Ordinance, with a view to addressing the indiscriminate use of plastic shopping bags. As Members may recall, there was a clear consensus when the Ordinance was enacted last year that the levy scheme should be implemented as soon as possible. Indeed, our recent opinion survey indicates that more than 90% of the public agree that there is a need to reduce the indiscriminate use of plastic shopping bags, and some 80% of the public support or strongly support the introduction of an environmental levy to address the problem. In response to this public aspiration on environmental protection, the Administration intends to put the environmental levy scheme into action as a matter of priority. I am therefore particularly grateful to the Madam Chairman and the Members of the Subcommittee on the Product Eco-responsibility (Plastic Shopping

Bags) Regulation under the House Committee, who held six Subcommittee meetings to expedite the scrutiny of the Regulation.

4. As I have committed at the resumption of the second reading debate of the Product Eco-responsibility Bill in July 2008, the implementation details of the environmental levy scheme are worked out in close consultation with the retail trade. In particular, the Administration has had a series of meetings with the Business Facilitation Advisory Committee and its Retail Task Force, the Hong Kong Retail Management Association, as well as major retailers to be covered by the environmental levy scheme. The Administration has also conducted site visits to six warehouses and ten retail outlets of the relevant retailers to better understand the actual operation on the ground. The Regulation represents our efforts to develop an environmental levy scheme that is both effective and business-friendly.

5. I am also thankful to Members of the Subcommittee for their various suggestions, which help improve the regulatory regime further. In particular, we are pleased to propose a number of amendments to the Regulation to take on board the views of the Subcommittee. These amendments include giving a registered retailer or an applicant for registration, deregistration or partial exemption an opportunity to make representations before the Director rejects an application or imposes additional conditions for an exemption or revokes an exemption. We also agree to provide for a second type of exemption in the Regulation so that an area used for the business of a third party within a qualified retail outlet, for instance a cosmetic counter operated by a third party within a department store, may be exempted from the first phase of the environmental levy scheme. To further ensure ease of compliance, we have also obviated the need to report in the quarterly return, and to keep records on, the number of plastic shopping bags distributed from exempted areas.

6. Members of the Subcommittee have also constantly reminded us the dynamic nature of the retail trade. To facilitate the operation of the trade, the Administration has pledged to process an application for registration of a new qualified retail outlet under a registered retailer within ten working days. To accommodate the special needs of an

applicant in unforeseen circumstances, the Administration also agrees to further shorten the processing time for urgent cases as far as practicable. As for a new application for registration of a prescribed retailer, the Administration has pledged to process it within 21 working days. With these performance pledges, as well as the proposed amendments to the Regulation, we trust that we could achieve our environmental goal of reducing the indiscriminate use of plastic shopping bags while minimizing the impact to the trade.

7. I must emphasize that the first phase of the environmental levy scheme is only a beginning. We shall consider how to extend the levy scheme to other retailers in subsequent phases shortly after the implementation of the levy scheme. In the meantime, we very much encourage retailers not yet covered by the environmental levy scheme (such as newspaper vendors) to work with green groups and launch plastic bag reduction initiatives. By working together, we could make the abuse of plastic shopping bags a thing of the past, and make “BYOB” a part of our green living.

8. Hong Kong is facing an imminent and serious waste problem. The implementation of the environmental levy scheme is a key cornerstone of our sustainable waste management strategy. We just cannot afford to wait any longer. I therefore call on this Council to support the Motion. Subject to the approval of this Council, we plan to start the initial registration of retailers within this month and to start the charging of the environmental levy on 7 July 2009.

9. With these remarks, President, I move the Motion.
