Head: 147 Government Secretariat: Financial Services and the Treasury Bureau  
(The Treasury Branch)      Subhead (No. & title):

Programme:                    (2) Revenue and Financial Control

Controlling Officer:    Permanent Secretary for Financial Services and the Treasury (Treasury)

Director of Bureau:    Secretary for Financial Services and the Treasury

Question:

It is Government's plan to issue more bonds in future. The Administration is invited to list by year of issue the annual interest rates of the \$26-billion securitisation bonds and Government bonds issued in the past. Please also list in details the expenditure incurred as a result of interests paid or payable by the Government to bond holders.

Asked by: Hon. CHAN Kam-lam

Reply:

Five tranches of bonds and notes securitized on the net toll revenues of the Aberdeen Tunnel, Cross-Harbour Tunnel, Lion Rock Tunnel, Shing Mun Tunnel, Tseung Kwan O Tunnel and Lantau Link were issued in May 2004. The details are as follows –

Tranche	Coupon rate (%)	Issue size (HK\$ million)	Maturity (years)	Interest paid (HK\$ million)	Estimated interest payable before maturity (HK\$ million)
Tranche A	2.75	880	3	72.6	Nil
Tranche B	3.60	800	5	137.0	7.2
Tranche C	4.28	790	7	161.0	76.0
Institutional Class A1	1.19	450	1	5.4	Nil
Institutional Class A2	3-month HIBOR + 36bps until May 2011 and +72bps until May 2016	3,080	12*	260.0	1.0
<b>Total</b>		6,000	--	636.0	84.2

\* The Institutional Class A2 Notes is callable prior to its scheduled maturity date at the discretion of the issuer.

In July 2004, the Government issued five tranches of Government Bonds. The details are as follows:

Tranche	Coupon rate (%)	Issue size (HK\$ million)	Maturity (years)	Interest paid (HK\$ million)	Estimated interest payable before maturity (HK\$ million)
Retail Tranche A	2.13	2,550	2	108.0	Nil
Retail Tranche B	3.38	2,700	4	365.0	Nil
Institutional Class A1	3.75	3,500	5	592.0	66.0
Institutional Class A2	5.125	1,500	15	346.0	809.0
US\$ Institutional	5.125	US\$1.25 billion	10	2,258.0	2,747.0
Total		20,000	--	3,669.0	3,622.0

Programme:                    (2) Revenue and Financial Control

Controlling Officer:    Permanent Secretary for Financial Services and the Treasury (Treasury)

Director of Bureau:    Secretary for Financial Services and the Treasury

Question:

In order to preserve employment and promote economic development, the Government's expenditures on infrastructure and recruitment of civil servants in 2009-10 have increased markedly. Please list the expenditures (recurrent expenditure and capital works expenditure) for each measure related to these two policy approaches in 2009-10.

Asked by: Hon. CHAN Kam-lam

Reply:

Estimated expenditure on capital works projects in 2009-10 amounts to \$39.3 billion, the breakdown according to the Heads under the Capital Works Reserve Fund is as follows –

<b>Head</b>	<b>2009-10 Estimate (\$ Million)</b>
702            Port and Airport Development	1
703            Buildings	9,187
704            Drainage	3,350
705            Civil Engineering	1,921
706            Highways	5,263
707            New Towns and Urban Area Development	1,829
709            Waterworks	2,966
711            Housing	558
708 (part)    Capital Subventions	14,248

Estimated expenditure on personal emoluments in 2009-10 amounts to \$52 billion, the breakdown according to the Heads under the General Revenue Account is as follows –

<b>Head of Expenditure</b>	<b>2009-10 Estimate (\$ Million)</b>	<b>Head of Expenditure</b>	<b>2009-10 Estimate (\$ Million)</b>	<b>Head of Expenditure</b>	<b>2009-10 Estimate (\$ Million)</b>

Programme:                    (2) Revenue and Financial Control

Controlling Officer:    Permanent Secretary for Financial Services and the Treasury (Treasury)

Director of Bureau:    Secretary for Financial Services and the Treasury

Question:

The Financial Secretary mentioned in his Budget speech that the Government intended to implement a programme to issue government bonds gradually and systematically in light of the market situation and other factors. Please advise:

- a.        Is the programme the same as the Asset Sale and Securitisation Programme mentioned under Matters Requiring Special Attention in 2009-10, or are they two different programmes?
- b.        What government assets had been studied when the Bureau commissioned financial consultants to conduct feasibility studies or assessments on asset sale and securitisation in the past few years?
- c.        How many financial consultants are expected to be appointed with the provision for 2009-10 which is \$11.0 million higher due to the deferred provision for appointment of financial consultants and are they responsible for assessment or specific tasks?

Asked by: Hon. FANG Kang, Vincent

Reply:

- a.        The Asset Sale and Securitisation Programme (ASSP) and government bond programme are two separate programmes.
- b.        The Government keeps the ASSP under close review. Details of individual items included in the ASSP will be announced when there are more concrete proposals on the timing and method of disposal.
- c.        In 2009-10, a sum of \$21.75 million has been earmarked for financial consultancy services, including provisions for the continuation of the financial advisory services for the future financial arrangements for Hong Kong Disneyland and the financial advisory services for railway development projects.

Question:

Will Item 881 "Electricity charges subsidy for eligible residential accounts" continue in 2009-10?

If yes, what are the details? If no, how will the approved commitment's balance of \$5,600,000,000 be dealt with?

Asked by: Hon. IP LAU Suk-ye, Regina

Reply:

According to the electricity charges subsidy scheme, each eligible residential electricity account will be provided with a monthly subsidy of \$300 from September 2008 to August 2009. This means that in 2009-10, residential electricity accounts will continue to receive the monthly subsidy of \$300 until August 2009. Under the scheme, any unused subsidy in the month may be carried forward until 31 August 2014 or the close of the account, whichever is earlier. The estimated balance of \$5.6 billion at end of 2008-09 for the approved commitment will be used to meet the subsidy payment under the scheme during the period from 2009-10 to 2014-15.

Head: 147 Government Secretariat: Financial Services and the Treasury Bureau  
(The Treasury Branch)      Subhead (No. & title):

Programme:                    (2) Revenue and Financial Control

Controlling Officer:    Permanent Secretary for Financial Services and the Treasury (Treasury)

Director of Bureau:    Secretary for Financial Services and the Treasury

Question:

It is mentioned that in 2009-10, the Government will:

- continue to consider major investment and loan proposals in support of economic and social development;
- continue with the implementation of the Asset Sale and Securitisation Programme; and
- appoint financial consultants to carry out various financial appraisal.

Please elaborate on:

- (a) What are the details of the above tasks, including the timetable, method of study and expenditure involved?
- (b) As regards the implementation of the Asset Sale and Securitisation Programme, in view of the conditions of the global financial markets over the past few months, will the Government review the related policies afresh? If yes, what are the details?

Asked by: Hon. IP LAU Suk-ye, Regina

Reply:

- (a) Investment and loan proposals are funded by the Capital Investment Fund (CIF) and Loan Fund (LF) as appropriate in accordance with the Legislative Council (LegCo)'s resolutions for establishment of the respective funds. Individual commitments of CIF and LF are subject to the approval of the Finance Committee of the LegCo. The Treasury Branch will consider proposals from other Bureaux as and when they arise.

For the Asset Sale and Securitisation Programme (ASSP), we will continue with the sale of civil servants' housing loans in 2009-10. It is estimated that around \$85 million will be received from the sale of these loans.

In 2009-10, a sum of \$21.75 million has been earmarked for financial consultancy services, including provisions for the continuation of the financial advisory services for the future financial arrangements for Hong Kong Disneyland and the financial advisory services for railway development projects

- (b) The Government will keep the ASSP under review, and will only dispose of its assets at a reasonable price and taking into account other factors, including the forms of disposal and market conditions.

1922

Head: 147 Government Secretariat: Financial Services and the Treasury Bureau  
(The Treasury Branch)      Subhead (No. & title):

Programme:                    (2) Revenue and Financial Control

Controlling Officer:    Permanent Secretary for Financial Services and the Treasury (Treasury)

Director of Bureau:    Secretary for Financial Services and the Treasury

Question:

It is mentioned that the Treasury Branch's work under this programme is to ensure that the growth of government expenditure over time is in line with the trend growth rate of the economy, and to maintain adequate fiscal reserves to provide a cushion against future uncertainties. In this regard, could the Administration explain:

- (a) How many years does "over time" mean?
- (b) Does "in line with the trend growth rate of the economy" refer to real growth rate or nominal growth rate?
- (c) On "maintaining adequate fiscal reserves", what amount will fit the Administration's definition of "adequate"?
- (d) On "providing a cushion against future uncertainties", is the definition of "uncertainties" met with our economy now suffering from the impact of the financial tsunami? How does the Government's Budget this year intend to make use of the reserves to provide a cushion against the current uncertainties?

Asked by: Hon. LI Wah-ming, Fred

Reply:

- (a) We do not have a specific timeframe when referring to "over time". Assessment on the timeframe is also relative to the prevailing economic situation. In managing public finances, our guiding principle is to strive to achieve a fiscal balance, avoid deficits and keep the budget commensurate with the growth rate of the GDP. This is to ensure a robust and sustainable fiscal system.
- (b) We will control the growth of government expenditure both in nominal term and in real term.

- (c) Fiscal reserves being “adequate” means that the reserves are maintained at an appropriate level with sufficient resources to cope with unfunded liabilities and fiscal pressure arising from economic downturns, unforeseen events or structural changes in the community; to enable the generation of a reasonable sum of investment income; and to assist the Exchange Fund in maintaining the stability of Hong Kong’s monetary and financial systems when needed.
- (d) We have adopted a counter-cyclical fiscal strategy and budget for a deficit in 2009-10. In view of the current economic conditions and community needs, we have maintained spending in the coming year at a high level of over \$300 billion. The resultant anticipated deficit of \$40 billion has to be covered by drawing upon the fiscal reserves. According to the medium range forecast, the reserves would be drawn down by an aggregate amount of about \$100 billion over the next five years.

2930

Head: 147 Government Secretariat: Financial Services and the Treasury Bureau  
(The Treasury Branch)      Subhead (No. & title):

Programme:

Controlling Officer: Permanent Secretary for Financial Services and the Treasury (Treasury)

Director of Bureau: Secretary for Financial Services and the Treasury

Question:

Although the Financial Secretary has proposed “adopting counter-cyclical measures” in the chapter of Preserving Jobs in the Budget, the actual growth in both government expenditure and public expenditure is in fact in the negative. The percentage of public expenditure in GDP is lower than that in 1998-1999 (after the Asian financial turmoil) and that in 2004-2005 (after SARS). Has the Administration conducted any study in respect of the formulation of “counter-cyclical measures”? If yes, what are the conclusions? Is increasing public expenditure to stimulate effective demand included as part of the measures? What are the expenditures involved?

Asked by: Hon. LEUNG Kwok-hung

Reply:

In preparing the 2009-10 Budget, we adopted a counter-cyclical fiscal strategy and set total government spending at \$301.6 billion. While operating expenditure for 2009-10 will be slightly lower than that for 2008-09 as the latter includes the costs of a number of one-off measures, it is higher than actual expenditure in 2007-08 by 19.2%. In comparison, the GDP for 2009 is forecast to increase by only 1.8% over 2007.

Question Serial No.

2873

Head: 147 Government Secretariat: Financial Services and the Treasury Bureau  
(The Treasury Branch)      Subhead (No. & title): 000 Operational expenses

Programme: (1) Director of Bureau's Office

Controlling Officer: Permanent Secretary for Financial Services and the Treasury (Treasury)

Director of Bureau: Secretary for Financial Services and the Treasury

Question:

As regards this Programme, please advise on:

- (a) the respective provisions for the Secretary for Financial Services and the Treasury, the Under Secretary and the Political Assistant in the 2008-09 revised estimates and the 2009-10 estimates; and
- (b) the specific duties and the respective achievements of the Under Secretary and the Political Assistant in 2008-09. How will the Administration assess if the principle of value for money has been given effect in the creation of the relevant posts?

Asked by: Hon. LEUNG Yiu-chung

Reply:

- (a) The provisions for the Secretary for Financial Services and the Treasury, the Under Secretary and the Political Assistant in the 2008-09 revised estimates and 2009-10 estimates are as follows:

	2008-09 Revised Estimates (\$ million)	2009-10 Estimates (\$ million)	Remarks
Secretary for Financial Services and the Treasury	3.59	3.59	-
Under Secretary	1.78	2.70	Assumed office in August 2008
Political Assistant	1.25	1.98	Assumed office in August 2008

- (b) Under Secretary for Financial Services and the Treasury is responsible principally for assisting the Secretary in undertaking the full range of political work, including the handling of Legislative Council (LegCo) business, and deputising for the Secretary during the latter's temporary absence. For instance, with effect from the 2008-09 legislative session, Secretary for Financial Services and the Treasury or Under Secretary for Financial Services and the Treasury would normally attend meetings of the LegCo Panel on Financial Affairs. These are important forums for the Government to explain its policies and to secure support for its initiatives. As part of her role in reaching out to the community, the Under Secretary for Financial Services and the Treasury chaired a number of district forums on the 2008-09 Policy Address.

The Political Assistant to Secretary for Financial Services and the Treasury is responsible principally for providing political support and input to the Secretary and the Under Secretary, and conducting the necessary political liaison at the instruction of the Secretary and the Under Secretary, including the liaison with the media and various stakeholders. Upon assuming office, the Political Assistant to Secretary for Financial Services and the Treasury has provided advice from the political perspective on, for instance, the need for lobbying political parties / groups and the handling of invitations and correspondence from political parties / groups. She has also monitored views from interest groups and the general public on policy issues concerned and assessed the political implications.

The appointment of Under Secretary for Financial Services and the Treasury and Political Assistant to Secretary for Financial Services and the Treasury has strengthened the support to the Secretary in undertaking political work, communicating with the LegCo and other stakeholders, such as District Councils, political parties / groups, non-governmental organisations, district personalities as well as business, professional and other bodies, and explaining government policies to the media and the public at large.

Head: 147 Government Secretariat: Financial Services and the Treasury Bureau  
(The Treasury Branch)      Subhead (No. & title): 700 General non-recurrent

Programme:

Controlling Officer: Permanent Secretary for Financial Services and the Treasury (Treasury)

Director of Bureau: Secretary for Financial Services and the Treasury

Question:

In respect of Item 881 "Electricity charges subsidy for eligible residential accounts", what is the expenditure sub-item involved in 2008-09? How many residential users have benefited so far? Has the Administration assessed the effectiveness of the expenditure item?

Asked by: Hon. LEUNG Yiu-chung

Reply:

The approved provision for Item 881 "Electricity charges subsidy for eligible residential accounts" is solely for meeting the subsidy payment to eligible accounts, and the 2008-09 revised estimate is \$3.2 billion. There is no expenditure sub-item under this item. Some 2.44 million residential electricity accounts are benefiting from the scheme. One of the purposes of the electricity charges subsidy scheme is to ease inflationary pressure on households. We believe the scheme has achieved its purpose. The average inflation rate as measured by the Composite Consumer Price Index for 2008 was 4.3%. If the electricity charges subsidy scheme and other government's one-off relief measures had not been introduced, the inflation rate would have been 5.6%. In addition, the measure helped ease the burden of the grassroots and the middle class and achieved our goal to relieving the hardship being faced by the people.

Question:

The revised estimated expenditure for Item 881 "Electricity charges subsidy for eligible residential accounts" is \$3.2 billion in 2008-09. How many electricity accounts are covered by this amount? How many months of consumption are involved?

Asked by: Hon. TONG Ka-wah, Ronny

Reply:

According to the electricity charges subsidy scheme, each eligible residential electricity account will be provided with a monthly subsidy of \$300 from September 2008 to August 2009. Some 2.44 million residential electricity accounts are benefiting from the scheme. The 2008-09 revised estimate of \$3.2 billion under the scheme is to pay for the amount of subsidy used by the accounts as shown in the bills issued during the period from September 2008 to March 2009.

Subhead (No. & title): 284 Compensation

Programme:

Controlling Officer: Permanent Secretary for Financial Services and the Treasury (Treasury)

Director of Bureau: Secretary for Financial Services and the Treasury

Question:

The provision under Subhead 284 "Compensation" in 2009-10 is \$70 million. Please provide the details of provision under this subhead.

Asked by: Hon. IP LAU Suk-ye, Regina

Reply:

Provision under Subhead 284 Compensation is for settlement of claims (other than compensation connected with land, public works and mail, and for civil servants under the Employees' Compensation Ordinance) and for certain ex-gratia payments. Charges against this vote are mainly settled sums agreed with plaintiffs out of court and compensation or damages ordered by the court. As with the past few years, a provision of \$70 million has been included in the 2009-10 Estimates to cater for possible requirements.

Head: 106 Miscellaneous Services

Subhead (No. & title): 789 Additional  
Commitments

Programme:

Controlling Officer: Permanent Secretary for Financial Services and the Treasury (Treasury)

Director of Bureau: Secretary for Financial Services and the Treasury

Question:

The provision under Subhead 789 "Additional commitments" in 2009-10 is \$8,087,762,000.

- (a) Please provide the details of provision under this subhead;
- (b) As mentioned under Details of Expenditure, initiatives under planning include supporting creative industries. Please provide the details of this initiative.

Asked by: Hon. IP LAU Suk-ye, Regina

Reply:

- (a) As regards the provision of \$8.1 billion under Subhead 789 Additional Commitments, about \$400 million is for meeting the remaining part of expenditure expected to be required in 2009-10 arising from the injection into Mandatory Provident Fund accounts as approved by the Finance Committee of the Legislative Council earlier. The rest of the provision is to meet funding for initiatives under planning and any unavoidable non-recurrent expenditure that may arise during the year in excess of the amounts provided under other heads and subheads of the Estimates. The major spending initiatives under planning include measures announced in the Budget, such as introducing a 2-year "Operation Building Bright" campaign, supporting the development of creative industries in the coming 3 years, launching various employment and internship programmes, organising more attractive events in the areas of arts, culture and sports, etc. These initiatives have yet to be approved by the Finance Committee of the Legislative Council. Besides, we have earmarked funds for further injection into the Trust Fund in Support of Reconstruction in the Sichuan Earthquake Stricken Areas as and when necessary, and for catering to other unforeseen circumstances.

- (b) The Commerce and Economic Development Bureau (CEDB) proposes to establish a \$300 million CreateSmart Initiative (CSI) to support Hong Kong's creative industries for the development of creative economy in the coming three years. CEDB has briefed the Legislative Council Panel on Information Technology and Broadcasting on the proposal to establish CSI on 9 March 2009 and Members generally supported the proposal. CEDB aims to seek approval from the Finance Committee in May 2009.

2141

Head: 106 Miscellaneous Services

Subhead (No. & title): 251 & 789 Additional  
Commitments

Programme:

Controlling Officer: Permanent Secretary for Financial Services and the Treasury (Treasury)

Director of Bureau: Secretary for Financial Services and the Treasury

Question:

Please list in details for what initiatives under planning and unavoidable recurrent expenditure that may arise during 2009-10 in excess of the amounts provided are the estimated provisions involving \$1.1 billion and \$8 million under these 2 subheads made. How are these 2 sums of provision totaling \$9.1 billion determined?

Asked by: Hon. LI Wah-ming, Fred

Reply:

In determining the proposed provision under the two subheads, we have taken into account the spending initiatives announced in the Budget and reserved funds to meet additional expenditure that may arise during the year.

As regards the provision of \$1.1 billion under Subhead 251 Additional Commitments, part of it serves as funding for meeting additional expenditure that may arise from adjusting civil service pension and payments under the Comprehensive Social Security Assistance Scheme and Social Security Allowance Scheme with reference to relevant price indices. In addition, we have included funds for items that may require funding later. These items are still under planning. The required provisions cannot at present be determined and allocated with precision.

As regards the provision of \$8.1 billion under Subhead 789 Additional Commitments, about \$400 million is for meeting the remaining part of expenditure expected to be required in 2009-10 arising from the injection into Mandatory Provident Fund accounts as approved by the Finance Committee of the Legislative Council earlier. The rest of the provision is to meet funding for initiatives under planning and any unavoidable non-recurrent expenditure that may arise during the year in excess of the amounts provided under other heads and subheads of the Estimates. The major spending initiatives under planning include measures announced in the Budget, such as introducing a 2-year "Operation Building Bright" campaign, supporting the development of creative industries in the coming 3 years, launching various employment and internship programmes, organising more attractive events in the areas of arts, culture and sports, etc. These initiatives have yet to be approved by the Finance Committee of the Legislative Council. Besides, we have earmarked funds for further injection into the Trust Fund in Support of Reconstruction in the Sichuan Earthquake Stricken Areas as and when necessary, and for catering to other unforeseen circumstances.

Programme:                      (6) Air Passenger Departure Tax Administration

Controlling Officer:    Director-General of Civil Aviation

Director of Bureau:    Secretary for Financial Services and the Treasury

Question:

According to the performance indicator, the estimated tax related cases to be processed in 2009 are fewer than those of 2008. Why is the efficiency of the 2009's planned performance target lower than that of 2008?

Asked by: Hon. WONG Ting-kwong

Reply:

Civil Aviation Department's performance target in respect of Air Passenger Departure Tax is to process 98% of the applications for refund received by post within 29 working days. We achieved 99% in 2008 due to the less than expected number of cases for which the airlines delayed in providing the necessary information. We consider it more prudent to set the target at 98% for 2009.

Director of Bureau:    Secretary for Financial Services and the Treasury

Question:

Please explain why the number of cases of re-assessment of provisional taxable value on imported vehicles has increased significantly from under 10 000 for 2007 to over 18 000 for 2008.

Asked by: Hon. CHAN Kam-lam

Reply:

The number of cases of re-assessment of provisional taxable value on imported vehicles has increased significantly because a large number of applications for reduction of provisional taxable value were submitted by vehicle distributors to cut prices and promote sales of their imported vehicles due to the slowing down of the economy since the fourth quarter in 2008. Between September and December 2008, a total of 9 809 application cases of re-assessment of provisional taxable value on imported vehicles were recorded which is close to the total number of cases (9 946) recorded for the whole year of 2007.

Director of Bureau:    Secretary for Financial Services and the Treasury

Question:

What is the financial and staffing provision required for 2008-09 in combating cigarette smuggling? Will cigarette smuggling activities be expected to be rampant with a 50% rise in tobacco duty rates? Will the financial and staffing provision be expected to increase in this aspect for 2009-10 accordingly? If yes, what are the figures? If no, what are the reasons?

Asked by: Hon. CHEUNG Yu-yan, Tommy

Reply:

In 2003, the Customs and Excise Department set up an Anti-Illicit-Cigarette Investigation Division with an establishment of 35 officers, including 1 Assistant Superintendent, 2 Senior Inspectors, 4 Inspectors, 4 Senior Customs Officers and 24 Customs Officers, to combat illicit cigarette activities. In addition to the above task force, additional manpower resources will be deployed as the need arises. In 2008-09, the Anti-Illicit-Cigarette Investigation Division was provided with a provision of \$9.46 million. The estimated provision in the aspect in 2009-10 is \$9.98 million.

Since the coming into effect of the new duty rates, the Customs and Excise Department has stepped up inspection and action against illicit cigarette activities through internal staff deployment. No additional resources are required for the time being.

Programme:                    (4) Revenue Protection and Collection

Controlling Officer:    Commissioner of Customs and Excise

Director of Bureau:    Secretary for Financial Services and the Treasury

Question:

The estimated expenditure on revenue protection and collection for 2009-10 represents a 6.0% and 2.7% decrease respectively when compared with the original estimate and revised estimate for 2008-09. What are the reasons?

Asked by: Hon. IP LAU Suk-yee, Regina

Reply:

Due to the removal of the administrative controls on wine and non-spirit alcoholic beverages (including beer) since 6 June 2008, the Customs and Excise Department has deleted a total of 13 posts by phases in 2008-09. The decreased provision due to the deletion of posts has not been reflected in the original estimate for 2008-09, with only part of it being reflected in the revised estimate for 2008-09. The estimated expenditure for 2009-10 has completely reflected the decreased provision. Therefore, the provision under Programme (4) for 2009-10 represents a 6.0% and 2.7% decrease respectively when compared with the original estimate and revised estimate for 2008-09.

Programme:                    (4) Revenue Protection and Collection

Controlling Officer:    Commissioner of Customs and Excise

Director of Bureau:    Secretary for Financial Services and the Treasury

Question:

There was a sharp decrease in the number of illicit cigarettes and illicit fuel seized by the authorities in 2008. Regarding this, will the Government provide information about the following:

1. the reason for the sharp decrease; and
2. the Government is going to increase tobacco duty by 50% in the coming financial year. Regarding this, does the authorities worry that the cases of selling illicit cigarettes will increase? If yes, what contingency measures will be taken? Will the authorities increase the resources and manpower for conducting spot checks? What will be the expenditures involved? If no, what are the reasons?

Asked by: Hon. LI Fung-ying

Reply:

1. (a) Reasons for the decrease in the number of illicit cigarettes seized:

Due to the sustained raiding operations carried out by the Customs and Excise Department, illicit cigarette activities in Hong Kong have been under control. In 2007, the Department detected 4 major cases of re-exporting smuggled cigarettes, resulting in a total seizure of 52 million sticks of illicit cigarettes, whereas in the 4 similar cases detected by the Department in 2008 only 14.9 million sticks of re-exported smuggled cigarettes were seized. As a matter of fact, the number of reports or complaints about illicit cigarettes received by the Department from the public also dropped from 804 in 2007 to 644 in last year.

- (b) Reasons for the decrease in the quantity of illicit fuel seized:

The concessionary duty rate for Euro V diesel introduced by Government has led to a decrease in the price of legal diesel. This combined with continuously rigorous enforcement actions taken by the Department has resulted in the gradual scaling down of illicit fuel activities. Moreover, the Department detected 5 smuggling cases of illicit fuel for export in 2007, resulting in a seizure of 565 000 litres of marked oil, whereas no similar cases were detected in 2008. As a matter of fact, the number of reports or complaints about illicit fuel received by the Department from the public also dropped from 1 058 in 2007 to 816 in last year.

2. To ensure that illicit cigarette activities will not increase after the new duty rate comes into effect, apart from maintaining full vigilance on the illicit cigarette activities at the control points and the market, the Customs and Excise Department has also stepped up inspection and action against illicit cigarette activities through internal staff deployment. No additional resources are required for the time being.

Director of Bureau:    Secretary for Financial Services and the Treasury

Question:

Regarding the service indicator, the estimated number of dutiable commodities permits issued in 2009 is 18 618 less than the actual number of permits issued in 2008, representing a decrease of nearly 20%. What are the reasons?

Asked by: Hon. WONG Ting-kwong

Reply:

The Government has exempted the duties on wine and non-spirit alcoholic beverages (including beer) since 27 February 2008 and the relevant administrative controls on wine and non-spirit alcoholic beverages (including beer) have also been adjusted since 6 June 2008. As a result, traders are no longer required to apply for permits for import, export, manufacturing, storage, movement as well as duty payment of the relevant liquors. Since liquor applications used to account for a substantial part of dutiable commodities permits in the past, it is estimated that the number of permits to be issued in 2009 will drop by about 20%.

Controlling Officer:    Commissioner of Customs and Excise

Director of Bureau:    Secretary for Financial Services and the Treasury

Question:

In "duty recovered" under Dutiable commodities, it shows that the amount for 2007 was \$2.7 million while that for 2008 was \$1.8 million. What are the reasons for the decrease in 2008? Also, do the above figures show whether there are still any outstanding amounts not fully recovered? If yes, what is the actual amount of the duty not recovered?

Asked by: Hon. WONG Ting-kwong

Reply:

The amount of the duty recovered each year depends on the number of duty recovery cases and the amount of money involved. In 2007, there were a total of 344 duty recovery cases whereas in 2008 there were 420 cases. In the past two years, the amount of the duty involved in each case, in general, did not exceed the sum of \$100,000. However, in 2007 there was a case in which the duty involved was as much as \$1.1 million, and therefore, the amount of the duty recovered in 2007 was higher. Among the cases of the past two years, there was no unrecovered duty.

Head: 59 Government Logistics Department      Subhead (No. & title):

Programme:                    (2) Supplies Management

Controlling Officer:    Director of Government Logistics

Director of Bureau:    Secretary for Financial Services and the Treasury

Question:

In 2009-10, Government Logistics Department will review the specifications for common-user items to promote the purchase of environment-friendly products. What is the percentage of the purchase of environment-friendly products under the common-user items in 2008-09? Did the Department set any new targets for 2009-10?

Asked by: Hon. CHAN Kam-lam

Reply:

In 2008-09, Government Logistics Department (GLD) awarded 21 two-year contracts for the supply of common-user items, including 13 contracts involving the supply of environment-friendly products (e.g. energy efficient photocopiers, recycled toilet paper, refillable ballpoint pens, refillable pencils, recycled pencils, file boxes made from recycled cardboard, detergent powder, cleansing powder and fuel oils). The total contract value of environment-friendly products was \$723.14 million, representing 93% of the total contract value of \$773.8 million for the common-user items concerned. Such value and percentage may vary from year to year depending on the total value of the common-user items to be purchased in that particular year. Hence it would be difficult to set a specific target in a particular year. That said, GLD will continue to arrange new contracts for the supply of environment-friendly products. Taking into account the result of the consultancy study commissioned by the Environmental Protection Department to update and expand environment-friendly specifications for common-user items, expected to be completed in mid 2009, GLD will consider adopting new green specifications for environment-friendly products, subject to market availability.

Asked by: Hon. CHAN Kam-lam

Reply:

When making purchases, Government Logistics Department (GLD) complies with the Stores and Procurement Regulations, which include guidelines on the procurement of environment-friendly products. These guidelines include, among others, purchasing products with higher recycled content.

As government procurement is normally undertaken on a fair, open, competitive and non-discriminatory basis, the Government will invite and evaluate tenders based on the capability of the suppliers to meet the tender specifications and requirements and not on the place of origin of the products to be procured.

In 2008, GLD awarded a two-year contract for the supply of recycled lubricants produced locally at an estimated value of \$4.39 million. It would not be appropriate to compare the value of this contract with the total value of government purchases undertaken on a non-discriminatory basis where a wide range of products, including fuel oil, computer equipment and software, vehicles and spare parts, food and beverages, telecommunication equipment, may or may not have recycled content.

Director of Bureau:    Secretary for Financial Services and the Treasury

Question:

It is estimated that 401 government vehicles will be replaced in 2009. Please advise:

- (a) What are the types of the vehicles to be replaced and how many of them are environment-friendly vehicles? Please give a detail breakdown of the numbers of respective types of the vehicles and the number of environment-friendly vehicles.
- (b) How many electric vehicles and associated battery charging accessories will be purchased?
- (c) What is the percentage of environment-friendly vehicles among the various types of vehicles in the current government fleet?
- (d) What is the expenditure involved in replacing vehicles?
- (e) What is the estimated difference in expenditure for procuring environment-friendly and non environment-friendly vehicles?

Asked by: Hon. LAM Kin-fung, Jeffrey

Reply:

- (a) All the 401 replacement vehicles to be procured in 2009 will comply with the prevailing statutory emission standards set by the Environmental Protection Department (EPD). Of the 401 vehicles, it is estimated that 160 cars and 3 buses will meet EPD's qualifying standards for tax incentives for environment-friendly vehicles. A breakdown of these 401 vehicles by vehicle type is as follows:

<b>Vehicle Type</b>	<b>No. of Vehicles</b>
Bus	47
Car	160
Cross Country Vehicle	35
Motorcycle	79
Truck	10
Van	70
<b>Total</b>	<b>401</b>

- (b) The Government will be actively involved in the test of electric vehicles in Hong Kong. Subject to the test results, maturity of the electric vehicle technology and availability of suitable models on the market, we will consider the use of electric vehicles in the government fleet.
- (c) At present, 612 of the 6 303 government vehicles are environment-friendly vehicles. They include 371 cars or 32.2% of the fleet of 1 151 cars, 229 liquefied petroleum gas (LPG) light buses or 85.8% of the fleet of 267 light buses, and 12 electric scooters or 2.1% of the fleet of 566 small motorcycles.
- (d) The estimated expenditure involved in replacing vehicles in 2009-10 is around \$112 million.
- (e) Currently, it is estimated that the replacement of vehicles with models on the latest list of environment-friendly vehicles which qualify for tax incentives, as compiled and published by EPD, would incur an additional expenditure of around \$3.6 million in 2009-10.

Question:

It is estimated that 8 additional government vehicles will be procured in 2009. Please advise:

- (a) What are the types of the additional government vehicles, and which departments or officials will use these government vehicles?
- (b) Will the Government give priority to procuring environment-friendly vehicles, such as electric vehicles?
- (c) Financial Secretary mentioned that the Government would procure electric vehicles. What is the plan? Which departments or officials will use these electric vehicles?
- (d) What is the expenditure involved? Will the contract be awarded to the lowest tenders?

Asked by: Hon. LAM Kin-fung, Jeffrey

Reply:

- (a) The Government will procure 8 additional vehicles in 2009-10 for meeting the operational needs of the Agriculture, Fisheries and Conservation Department, the Correctional Services Department and the Customs and Excise Department. The types of vehicles involved are buses for conveying inmates, dog vans and medium vans.
- (b) When purchasing new vehicles, the Government would give priority to environment-friendly vehicles, subject to the availability of suitable models on the market, operational and resource considerations.
- (c) In 2008, the Government procured 12 electric scooters for replacing the same number of petrol driven motorcycles for trial by various departments with a view to examining their suitability for use and possible application in the government vehicle fleet. Subject to the trial results, we will consider whether more electric scooters should be procured. The Government will also be actively involved in the test of electric vehicles in Hong Kong. Subject to the test results, maturity of the electric vehicle technology and availability of suitable models on the market, we will consider the use of electric vehicles in the government fleet.

- (d) The estimated cost of the 8 additional vehicles is \$4.1 million. Both quality and cost will be taken into account in the evaluation of the tenders.

Question:

Does the Government Logistics Department include the criterion of environmental procurement in its advice to government departments on the use and purchase of printing equipment and accessories? If no, will this criterion be included?

Asked by: Hon. PAN Pey-chyou

Reply:

In providing advice on the use and purchase of printing equipment and accessories, Government Logistics Department will remind bureaux and other departments to comply with the Stores and Procurement Regulations which include guidelines on the procurement of environment-friendly products. These guidelines include avoiding single-use disposal items and purchasing products with improved recyclability; higher recycled content; reduced packaging; greater durability; greater energy efficiency; which utilise clean technology and/or clean fuels; which result in reduced water consumption; which emit fewer irritating or toxic substances during installation or use; or which result in smaller production of toxic substances upon disposal.

Question:

Please provide information on the estimated increase in general expenses in 2009-10.

Asked by: Hon. PAN Pey-chyou

Reply:

Provision for 2009-10 is \$8.3 million higher than the revised estimate for 2008-09. This is mainly due to the provision for replacing one offset printing machine, filling of vacancies and creation of three posts in 2009-10 to meet operational needs.

Question:

With reference to Paragraph 15 under the Brief Description, Government Logistics Department vets requests for additional and replacement vehicles to ensure they are justified for procurement, please advise:

- (a) How many vehicles does the government currently have?
- (b) What is the estimated expenditure involved in replacing 401 vehicles in 2009-10?
- (c) Among the vehicles to be replaced, what is the percentage of vehicles which can be operated normally?
- (d) What are the reasons for replacing the vehicles? Please provide a detail breakdown of the reasons and the number of vehicles replaced for each reason.
- (e) What is the depreciated value of each vehicle before replacement?

Asked by: Hon. TONG Ka-wah, Ronny

Reply:

- (a) At present, there are 6 303 vehicles in the government vehicle fleet.
- (b) The estimated expenditure involved in replacing 401 vehicles in 2009-10 is about \$112 million.
- (c) Of the 401 vehicles to be replaced, 355 vehicles or 88.5% can still be operated but not cost effectively according to the Economic Life Model.
- (d) Of the vehicles to be replaced, 355 vehicles have been assessed to be due for replacement based on the Economic Life Model which takes into account cumulated maintenance cost, vehicle age, mileage run and replacement cost. The remaining 46 vehicles have been assessed by the Electrical and Mechanical Services Department to be beyond economical repair and are no longer serviceable
- (e) All the 401 vehicles will have been fully depreciated by the time they are replaced.

Head: 59 Government Logistics Department      Subhead (No. & title):

Programme:                    (4) Printing Services

Controlling Officer:    Director of Government Logistics

Director of Bureau:    Secretary for Financial Services and the Treasury

Question:

- (a) There is no increase in the use of available production capacity from 2007 to 2009 (estimate). Has the government any enhanced productivity measures to increase productivity?
- (b) What is the volume of printing production in terms of paper usage from 2007 to 2008?

Asked by: Hon. TONG Ka-wah, Ronny

Reply:

(a) The use of available production capacity has been maintained at an average of around 86% in recent years through the implementation of productivity enhancement measures such as flexible deployment of resources, including 24-hour operation on a need basis, and upgrading of some old and worn-out machines which are not cost-effective to operate.

It is unlikely that the existing use of available production capacity in percentage terms can be further increased because the machines cannot be fully utilised at all times mainly due to unavoidable stoppages in day-to-day operation arising from:

- (i) workflow implications, e.g. change of printing plates between jobs;
- (ii) uneven distribution of workload throughout the year; and
- (iii) scheduled and unscheduled maintenance.

(b) The total amount of paper used for printing production in 2007 and 2008 were around 6 224 metric tonnes and 5 615 metric tonnes respectively. There were more printing demands from bureaux/departments to meet their operational needs in 2007 such as printing requirements related to the celebratory activities for the 10<sup>th</sup> anniversary of the establishment of the HKSAR and election related activities.

Question:

How many cases of profits tax, salaries tax, property tax and personal assessment were filed electronically through Internet in 2008-09? What are the percentages of these cases for each type of tax?

Asked by: Hon. CHAN Kam-lam

Reply:

Up to 28 February 2009, the number of individual tax returns and property tax returns lodged electronically and their percentage in the total number of tax returns received for the 2007-08 year of assessment are as follows:

Year	Individual tax returns *		Property tax returns #		Total	
	No. of returns lodged electronically	% to total returns received for the year of assessment 2007-08	No. of returns lodged electronically	% to total returns received for the year of assessment 2007-08	No. of returns lodged electronically	% to total returns received for the year of assessment 2007-08
2008-09 (up to 28 February 2009)	197 000	9.3%	3 000	2.4%	200 000	8.9%

\* Comprising salaries income, property rental income from solely-owned properties, profits from sole proprietorship businesses and Personal Assessment. Electronic filing of profits tax returns is not yet available

# Property rental income from jointly-owned properties.

Head: 76 Inland Revenue Department

Subhead (No. & title):

Programme: (1) Assessing Functions

Controlling Officer: Commissioner of Inland Revenue

Director of Bureau: Secretary for Financial Services and the Treasury

Question:

How many applications for holding over of part or the whole of the provisional tax and paying tax by instalments have been received in respect of profits tax, salaries tax and personal assessment in the previous 5 years (i.e. 2004-05, 2005-06, 2006-07, 2007-08 and 2008-09)? What are the respective percentages of these cases out of the total number of assessed cases for each type of tax?

Asked by: Hon. CHAN Kam-lam

Reply:

The requested statistics in the past five years are as follows:

(i) Holding over of provisional tax:

Year	Profits Tax		Salaries Tax	
	No. of holdover cases	% to total demand notes	No. of holdover cases	% to total demand notes
2004-05	4 400	4.5%	37 400	3.3%
2005-06	5 200	4.7%	44 600	3.7%
2006-07	5 200	4.3%	39 600	3.3%
2007-08	4 200	3.6%	32 600	2.7%
2008-09*	7 800	6.8%	58 100	4.8%

Personal Assessment is not a tax levy but a relief measure. No provisional tax is charged.

(ii) Paying tax by instalments:

Year	Profits Tax		Salaries Tax		Personal Assessment	
	No. of Instalment cases	% to total demand notes	No. of Instalment cases	% to total demand notes	No. of Instalment cases	% to total demand notes
2004-05	2 160	2.2%	12 160	1.1%	1 060	0.7%
2005-06	1 990	1.8%	12 610	1.1%	1 010	0.7%
2006-07	2 090	1.8%	11 900	1.0%	930	0.6%
2007-08	2 020	1.7%	8 660	0.7%	710	0.4%
2008-09*	2 000	1.8%	6 100	0.5%	620	0.5%

\* Up to 28 February 2009

0796

Head: 76 Inland Revenue Department

Subhead (No. & title): 189 Interest on tax reserve certificates

Programme:

Controlling Officer: Commissioner of Inland Revenue

Director of Bureau: Secretary for Financial Services and the Treasury

Question:

The estimated provision under Subhead 189 Interest on tax reserve certificates for 2009-10 is \$112,100,000, which is \$38,100,000 (51.5%) higher than the revised estimate for 2008-09.

Please explain the circumstances under which the Inland Revenue Department has to pay substantial amount of interest for the redemption of these tax reserve certificates upon the finalization of a number of tax objection/appeal cases.

Asked by: Hon. IP LAU Suk-ye, Regina

Reply:

The major portion of interest on tax reserve certificates (TRCs) is the interest on 'Conditional Standover Order Tax Reserve Certificates' (Conditional TRCs), which is paid upon settlement of objections/appeals in taxpayers' favour. The actual amount paid in a particular year depends on whether the objections/appeals could be settled within that year, whether the taxpayers would succeed in the objections/appeals, the movement of interest rates, and the length of the Conditional TRCs holding period. These factors are beyond the control of the Inland Revenue Department (IRD).

For 2008-09, the original estimate for interest on TRCs was \$134.2 million. In early 2009, after reviewing the actual expenditure position for 2008-09 and judging from the objection/appeal cases pending settlement in hand, IRD revised the estimate downwards to \$74 million. In estimating the provision for interest on TRCs of \$112.1 million for 2009-10, IRD has taken into account all the above-mentioned factors, particularly the value of Conditional TRCs in hand and the possibility of finalization of a number of objection/appeal cases in the year which entails payment of a substantial amount of interest.

Question:

The allowances under personal emoluments of Operational Expenses have risen from \$8.83 million in 2008-09 to \$10.52 million in 2009-10, representing an increase of nearly 20%. Please explain the reasons for such a large increase in detail.

Asked by: Hon. TONG Ka-wah, Ronny

Reply:

The allowances under personal emoluments of Operational Expenses mainly cater for overtime, acting and on-call duty allowances. Based on the actual/anticipated increase in overtime allowance to clear tax assessments, the requirement for 2008-09 is revised to \$10.33 million, and the estimated requirement for 2009-10 is slightly increased further by 1.8% to \$10.52 million.

Head: 76 Inland Revenue Department                      Subhead (No. & title):

Programme:                      (1) Assessing Functions

Controlling Officer:      Commissioner of Inland Revenue

Director of Bureau:      Secretary for Financial Services and the Treasury

Question:

In 2009-10, the Inland Revenue Department will continue to step up efforts to promote taxpayers' voluntary compliance through publicity programmes and enhanced services. What are the estimated expenditures involved in these programmes? What kind of trend is shown when these expenditures are compared with those of 2008-09? Has any assessment been conducted in respect of the effectiveness of these programmes? If so, please provide the details.

Asked by: Hon. WONG Ting-kwong

Reply:

The Inland Revenue Department (IRD) firmly believes that taxpayer education can help promoting voluntary compliance by employers and taxpayers. To facilitate compliance and strengthen tax education, IRD constantly issues information leaflets and updates the Department's Homepage to provide a full range of relevant information. The information includes a series of updated Departmental Interpretation & Practice Notes (DIPNs) for income taxes, stamp duty and estate duty and e-Seminars. The DIPNs serve to enhance the taxpaying public's understanding of both the Department's views and operations while the e-Seminars provide detailed guidance to tax representatives, employers, property owners and individual taxpayers on how to complete tax returns and fulfill their tax obligations. To assist the taxpayers further, IRD also uploads frequently asked questions for their reference.

In 2009-10, IRD will continue to make use of its existing resources to promote and enhance taxpayer education. Through eTAX, taxpayers are also alerted to file their returns and pay tax on time to discharge their tax obligations. The budget for promoting eTAX in 2009-10 is about \$600,000 which is lower than 2008-09 by about 58% due to wider use of publicity via the Internet. For other publicity programmes, the expenditure is expected to be minimal.

IRD has not conducted any formal evaluation on the result of the publicity programmes. However, the response is known to be positive from the increasing usage of our web information and e-services.

Head: 162 Rating and Valuation Department      Subhead (No. & title):

Programme:                    (3) Provision of Valuation and Property Information Services

Controlling Officer:    Commissioner of Rating and Valuation

Director of Bureau:    Secretary for Financial Services and the Treasury

Question:

- (a) Please brief this Committee on the outcome of the first phase of the Property Information Online (PIO) which was launched by the Department in 2008. What is the utilisation rate of this service by the public? (What is the percentage of its utilisation when compared with the similar enquiries made in the conventional way?)
- (b) When will the next phase of services be launched? What kinds of enquiry services will be incorporated in the next phase of PIO?
- (c) In the long run, will the Department develop the online enquiry service into a platform for providing diversified paid services, thereby making it a new source of income for the Department?

Asked by: Hon. CHAN Kam-lam

Reply:

- (a) Phase I of the PIO of the Rating and Valuation Department was launched on 11 February 2009. This new service will replace the Department's telephone-based Property Info-hotline Service. The usage rate of the PIO is picking up steadily and the number of property records retrieved is about 100 per day as at the beginning of March 2009. Before the launch of the PIO, the average number of records retrieved through the Info-hotline System was about 400 per day. It is expected that usage rate of the PIO will increase over time when users get used to the new online services.
- (b) Under Phase II of the PIO, the 2009-10 Valuation List and Government Rent Roll declared on 11 March 2009 have been made available for public inspection up to 31 May 2009. Besides, the online enquiry on rateable value of property throughout the year will be implemented in mid 2009. The Department is also exploring the feasibility of Phase III of the PIO to provide online enquiry service on payment of rates and Government rent.

(c) The aim of the PIO development is to establish a good foundation for the Department to roll out more online services to the public. With the development of a user-friendly address search engine under PIO, there are opportunities for further collaboration with other government departments on property related services. The online services provided are not aimed at generating revenue and are charged on a cost-recovery basis.

Head: 162 Rating and Valuation Department      Subhead (No. & title): 000 Operational expenses

Programme:

Controlling Officer: Commissioner of Rating and Valuation

Director of Bureau: Secretary for Financial Services and the Treasury

Question:

In 2006-07, the actual total expenditure on personal emoluments was \$296,959,000 and that on the Provident Fund contribution was \$89,000 only. Please explain the drastic increase of the Provident Fund contribution between the years 2007-08 and 2009-10.

	<u>2007-08</u> (Actual) (\$'000)	<u>2009-10</u> (Estimate) (\$'000)	Increase
Personal Emoluments	305,222	335,310	+9.9%
Mandatory Provident Fund Contribution	41	472	10.5 times
Civil Service Provident Fund Contribution	179	507	1.8 times

Asked by: Hon. CHAN Mo-po, Paul

Reply:

The "Mandatory Provident Fund (MPF) contribution" under "Personnel Related Expenses" is for meeting the Government's contribution under the MPF Scheme for officers on civil service new probationary and new agreement terms. Increased provision between the years 2007-08 and 2009-10 is due to the recruitment of new officers to fill the vacancies in Valuation Surveyor and Valuation Officer Grades. The corresponding increase in personal emoluments has been reflected in the Controlling Officer's Report.

The "Civil Service Provident Fund (CSPF) contribution" under "Personnel Related Expenses" is for meeting the Government's contribution under the CSPF Scheme for officers on civil service new permanent terms. Increased provision between the years 2007-08 and 2009-10 is because more officers, who joined the civil service on or after 1 June 2000 and are subsequently offered permanent terms of appointments, will become eligible for the CSPF Scheme.

Reply:

Of the \$2,200,000 provision for the outsourcing of interim valuation of village-type properties in the New Territories, \$2,108,000 would be incurred by the end of 2008-09, and a total of 4 813 village-type properties would have been assessed.

Head: 188 Treasury

Subhead (No. & title):

Programme: (1) Central Accounting, Collections and Payments

Controlling Officer: Director of Accounting Services

Director of Bureau: Secretary for Financial Services and the Treasury

Question:

Can the Government give more detailed information (e.g. key revenue such as profits tax, salaries tax, stamp duties) under major income and expenditure in the quarterly statements of accounts? If not, what are the reasons? If yes, what will be the additional expenditure involved?

Asked by: Hon. CHAN Mo-po, Paul

Reply:

The Government's quarterly accounts are published to provide interim updates on the overall financial performance and position of the Government during the year. It is our plan to review the content and format of the quarterly accounts for possible alignment with the annual accounts in our post-implementation review of the operation of the new Government Financial Management Information System during 2009-10. The additional expenditure to be involved, if any, will be assessed in the review.

Controlling Officer: Director of Accounting Services

Director of Bureau: Secretary for Financial Services and the Treasury

Question:

It is mentioned that all four programmes will incur additional expenditure due to filling of vacancies. For each programme, please provide the vacant posts to be filled, the reasons for filling these vacancies, their numbers and ranks, and the additional expenditures involved.

Asked by: Hon. TONG Ka-wah, Ronny

Reply:

It is estimated that \$5.9 million is required in 2009-10 for filling 18 vacant posts arising from natural wastage. Details are as follows -

Programme	No. of Vacant Posts	Rank	Estimated Expenditure \$(million)
(1)	5	Treasury Accountant (1 no.), Accounting Officer II (1 no.), Senior Clerical Officer (1 no.) and Clerical Officer (2 nos.)	2.1
(2)	7	Senior Clerical Officer (1 no.), Clerical Officer (1 no.), Assistant Clerical Officer (4 nos.) and Clerical Assistant (1 no.)	1.6
(3)	5	Accounting Officer II (2 nos.), Senior Clerical Officer (1 no.), Analyst/Programmer II (1 no.) and Workman II (1 no.)	1.4
(4)	1	Senior Treasury Accountant	0.8

Question:

What is the utilisation rate of e-payments in 2008-09? Is there a rising trend? What are the manpower and expenditure that can be saved?

Asked by: Hon. WONG Ting-kwong

Reply:

The utilisation rate of e-payments in 2008-09 is 47.3%. There is a rising trend of utilisation of e-payments, as evidenced by the increase of the utilisation rate from 43.2% in 2004-05 to 47.3% in 2008-09, with an average increase of 1% per year. The manpower and expenditure that can be saved is modest, but the e-payment channel provides great convenience to the public who can settle government bills any time and anywhere.
