Clerk to Public Works Subcommittee
Legislative Council Building
8 Jackson Road
Central
Hong Kong
(Attn: Ms Diana Wong)

Dear Ms Wong,

**Public Works Subcommittee
Follow-up to meeting on 8 April 2009**

Further to our letter dated 20 April 2009, I am writing to provide further information concerning the two noise barrier retrofitting projects on Fanling Highway (**6805TH** and **6807TH**)(Paper PWSC(2009-10)6) discussed at the Public Works Subcommittee meeting on 8 April 2009.

Regarding the design of the proposed noise barrier, as a trial scheme, the Highways Department has modified the design of a 120-metre section of the vertical noise barrier to be constructed along the Fanling Highway under **6807TH** by adopting the design concept of a merit entry of the Open International Ideas Competition for Noise Barrier/Enclosure Design. The modified design aims to improve the visual appearance of the noise barrier through richer variations in the colour of the vegetation to be planted (see **Enclosure**). Subject to the outcome of this trial, the Highways Department will consider wider application of the new design to other noise barrier projects.

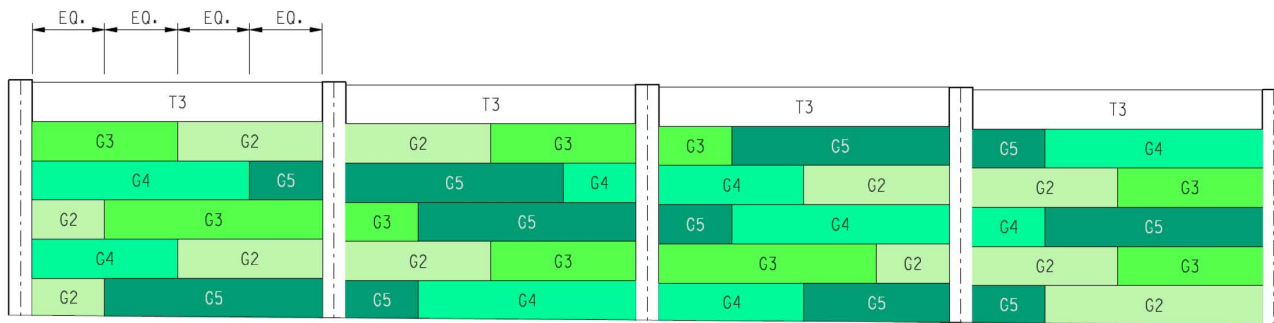

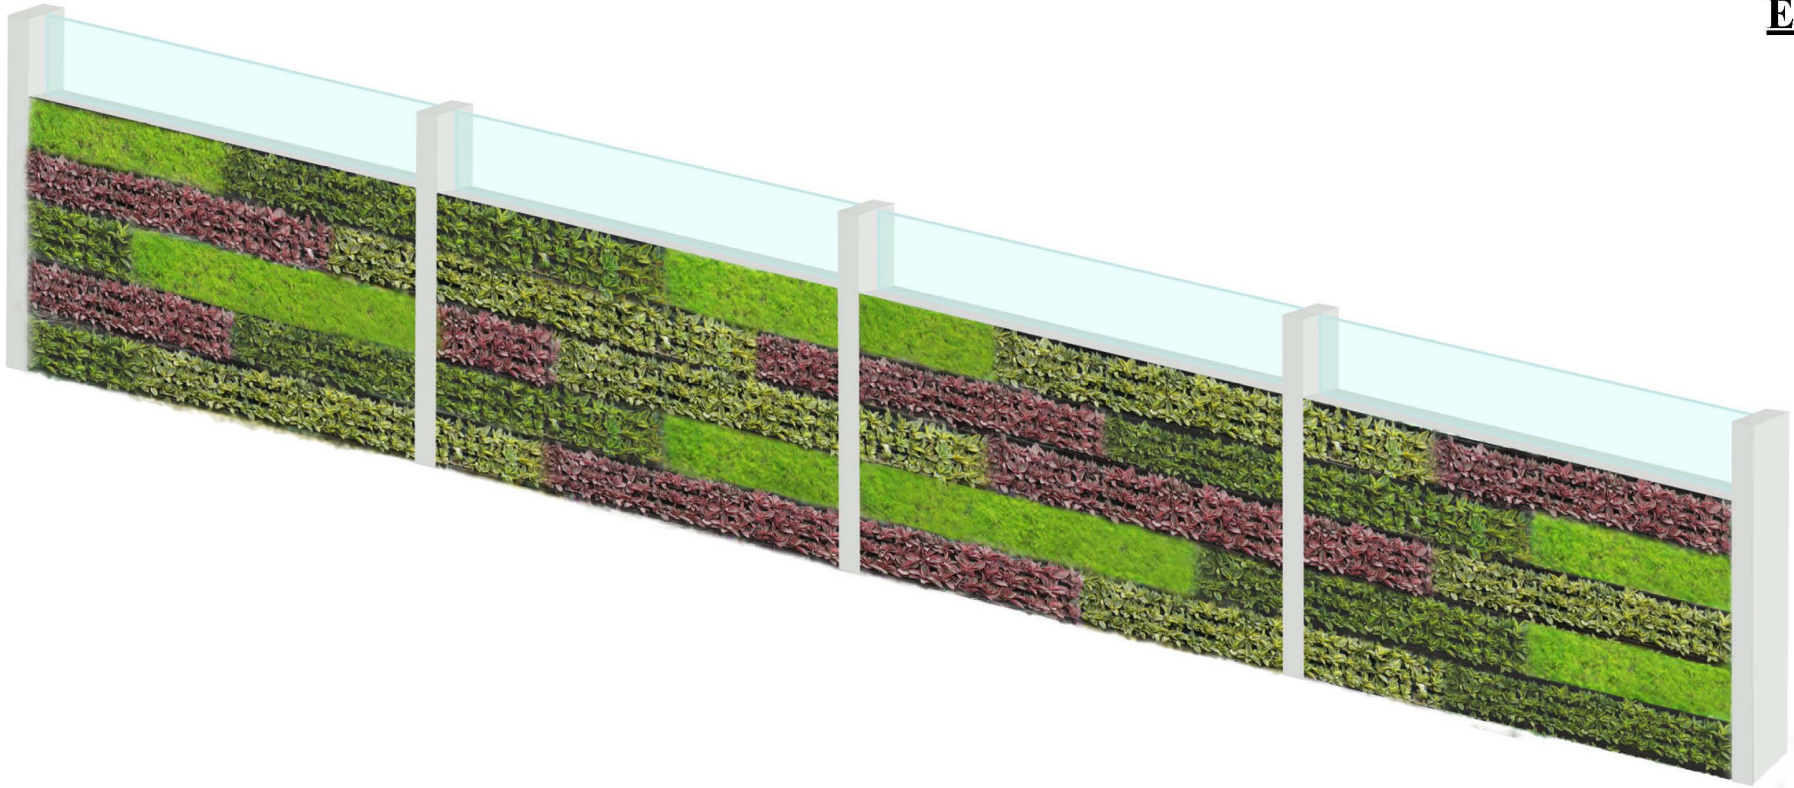

I should be grateful if you would relay the above information to Members of the Public Works Subcommittee.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Chris NG'.

(Chris NG)
