

Ref: AM 12/01/19 (08-12)

**Subcommittee on Members' Remuneration and
Operating Expenses Reimbursement**

Submission to the Independent Commission

Matters for discussion

- (a) Should LegCo submit to the Independent Commission that there should be a mechanism to determine and adjust Members' monthly remuneration that is acceptable to the Legislature, the Administration and the public?
- (b) Does the Subcommittee accept the present remuneration level of using MPS 40 as the benchmark and adjust it in accordance with the movement of CPI(C) as the long-term mechanism?
- (c) Should the Subcommittee recommend that Members' remuneration should be pegged to the salaries of principal officers and/or judges; if yes, at which point or what percentages?
- (d) Should all Members receive the same remuneration?
- (e) In what manner can the public's concern about Members' performance be addressed?
- (f) Should public consultation and further discussion with Members be necessary?
- (g) If (f) is needed, what is the interim proposal that can be put forward to the Administration at this stage?
