Subject to abolish Employees' re-training levy

Most of the people under these programme were not qualified for the new jobs because of lack of working experience in the new work prospective and also the newly learnt skill is not adequate for the job requirement.

Also a lot of applicants under re-training programe is over-aged ( over 50) for adaptability to a new work enviroument with a new skill. Most of them failed to fulfill the job.

I therefore suggest that we should not use overseas' employment's taxation on their re-training levy.
