**Background**

2. In December 2008, the National Development and Reform Commission promulgated the "Framework for Development and Reform Planning for Pearl River Delta Region (2008-2020)" (the Framework). Under the Framework, the PRD area would continue to take a leading role to expand reforms and deepen opening-up through measures such as developing PRD Region into a green and quality living area, accelerating economic restructuring and enhancing cross-boundary cooperation with Hong Kong. The objective is to develop PRD Region into a "globally competitive" and the "most vigorous area in the Asia-Pacific region" by 2020.

3. To facilitate better understanding of the objectives, specific measures and co-operation mechanism between Hong Kong and Guangdong in achieving the goal, both Panels have written to the Guangdong People's Congress exploring the opportunity of exchanging views with the relevant Mainland authorities and visiting some relevant facilities.
