could not be contacted) under BO. The Administration further advised that taking into account the policy content involved in the review, and the fact that more time would be needed to study the issue and conduct necessary research into relevant developments in other common law jurisdictions and consultations, it was not appropriate or possible to include legislative amendment proposals with respect to the "abscondee" regime as a whole in the Bill. Any proposed legislative amendments to the "abscondee" regime should be taken forward in a separate exercise.

Members of the Bills Committee were concerned about the timeframe for introducing the proposed legislative amendments to the "abscondee" regime and whether public consultation would be conducted. The Bills Committee agreed that the issues should be referred to the Panel for follow-up. The Administration subsequently advised that it was in the process of conducting a research on the "abscondee" regime. Depending on the results of the research in 2009, it will then be in a better position to assess the scope of necessary amendments to BO and the likely timing to pursue such amendments.
