Clerk to Panel
LegCo Panel on Food Safety and Environmental Hygiene
(Attn: Miss Mary SO)
Legislative Council Building
8 Jackson Road, Central
Hong Kong
(Fax No. : 2509 0775)

Dear Miss SO,

**Funding for enhanced measures to step up environmental hygiene to combat
human swine influenza**

Further to the letter of 30 June 2009 to the Panel, we herewith provide more information on the performance targets of the various proposed initiatives for environmental hygiene improvement in the fight against the human swine influenza (HSI), and the reporting mechanism with regard to the implementation of these initiatives.

Performance targets

The proposed allocation of \$300 million aims to provide additional resources for the Drainage Services Department, the Food and Environmental Hygiene Department, the Home Affairs Department, the Leisure and Cultural Services Department, the Social Welfare Department, the Agriculture, Fisheries and Conservation Department and the Marine Department to implement a number of initiatives to step up environmental hygiene measures as well as the relevant public education and publicity work in the fight against HIS, lasting for about 12 months. In response to the suggestion of Members, we have drawn up a number of objective performance targets to measure the performance of the initiatives (see **Enclosure 1**).

Progress Report

In order to keep Members informed of the implementation progress of these initiatives, we will submit a progress report to the Legislative Council Panel on Food Safety and Environmental Hygiene nine months after the relevant funding proposal is approved by the Finance Committee.

Grateful if you would provide the above information to Members.

Yours sincerely,

(Francis HO)

for Secretary for Food and Health

Enhanced Measures to Step Up Environmental Hygiene to Combat Human Swine Influenza

Initiative	Performance Targets
<p>Drainage Services Department Additional cleansing of underground drains and sewers</p>	
<p>Enhancing cleansing for blockage-prone underground sewers and drains in congested urban areas and sewers from all hospitals, major government clinics and markets.</p>	<ul style="list-style-type: none"> • To increase the current three to four times cleansing works up to about six times a year to blockage-prone underground sewers and drains in congested urban areas (about 270 locations in total, see Enclosure 2) and sewers from all hospitals, major government clinics and markets in next 12 months. • The total additional length of sewers and drains to be cleansed under this exercise is about 100 km.
<p>Food and Environmental Hygiene Department: Special improvement in environmental hygiene to combat human swine influenza</p>	
<p>Enhancing cleansing and disinfection services in public markets</p>	<ul style="list-style-type: none"> • To carry out enhanced cleansing and disinfection services by means of high pressure hot water cleaners to common areas (including passageways, toilets, lift lobby, loading area, refuse collection points and vacant stalls, etc.) in all 104 public markets in Hong Kong at least once a day. • To arrange hourly disinfection to handrails of escalators and panel boards of lifts. • To conduct disinfection for toilets after each cleansing operation and disinfection

	of common areas in markets after the last cleansing operation of the day.
Enhancing street washing services	<ul style="list-style-type: none"> ● To enhance the clean-up of some 1 500 problematic backlanes in the vicinity of food premises, hawker concentrated areas and public markets, using high pressure hot water cleaners.
Enhancing cleansing for aqua privies and public toilets	<ul style="list-style-type: none"> ● To enhance the hygiene condition of about 550 aqua privies and public toilets without attendant service; to increase the daily cleaning from one/two times to three times, and to increase the weekly deep cleansing from one to twice.
One-off clean-up services to common areas of private buildings without management bodies	<ul style="list-style-type: none"> ● To provide one to two roving teams in each district to provide one-off clean-up to the common areas (roof, staircase, lightwell and canopy) of some 5 000 private buildings without management bodies as well as their adjacent lanes.
Enhancing the clean-up of environmental hygiene blackspots and sustaining the enhanced level of public cleansing services	<ul style="list-style-type: none"> ● To provide one to two roving teams in each district to enhance the clean-up of hygiene blackspots and eliminate the spots through special cleansing operations. Of the 105 environmental hygiene blackspots identified in consultation with District Councils, 21 have been cleared and removed from the list thus far. The remaining 84 have been restored to an acceptable hygiene condition. Through this new initiative and with the support of the community, it is expected that they would be properly restored in next 12 months.
Publicity and educational programmes on personal, domestic and environmental hygiene	<ul style="list-style-type: none"> ● To organise five publicity programmes for community involvement and distribute 100 000 sets of publicity materials prepared in nine languages to promote hygiene messages to target groups, including domestic helpers, new immigrants, and ethnic minorities. ● To organise promotional activities on anti-flu and hygiene messages, including

	exhibitions, game booths and workshops, for some 70 public markets.
Home Affairs Department: Environmental hygiene improvement and community involvement projects	
Cleansing work in the community	<ul style="list-style-type: none"> • To conduct cleansing work for the common areas of about 1 000 private buildings without management bodies. • To conduct cleansing work for about 20 000 households of the under-privileged, such as singleton elderly.
Promotional activities	<ul style="list-style-type: none"> • To organize about 200 promotional events on personal/environmental hygiene in districts, such as seminars and roving exhibitions.
Leisure and Cultural Services Department Strengthening cleansing and disinfection services and promoting human swine influenza precautionary measures in leisure and cultural venues	
Enhancing cleansing and disinfection for parks and playground served by mobile cleaners	<ul style="list-style-type: none"> • To set up one to two mobile cleansing teams in each district for conducting thorough cleansing and disinfection work in 600 parks and playgrounds from once or twice a month to at least once a week; and stepping up the daily thorough cleansing and disinfection to children play equipment at parks and playgrounds from once/twice to at least twice.
Enhancing cleansing and disinfection for public libraries	<ul style="list-style-type: none"> • To raise the cleansing frequency, from at least once daily to once every hour, for the public facilities in libraries including keyboards, mouse pads and mouse of all computer equipment.
Promoting human swine influenza	<ul style="list-style-type: none"> • To recruit 106 Health Ambassadors for serving in venues with high usage /

<p>precautionary measures in leisure and cultural venues</p>	<p>patronage, including 23 indoors sports centres, 29 major parks / playgrounds / holiday camps / outdoor recreation and sports centres, 34 public libraries, 12 indoor stadia and performing arts venues and 8 public museums to help step up environmental hygiene and related precautionary measures as well as public education. As these venues cover a large area and are heavily used, there is a need to provide dedicated staff to ensure environmental hygiene, closely monitor and timely follow-up the cleansing and disinfection work of the venues / facilities, and directly respond to users' enquiries, for the benefit of users.</p>
<p>Social Welfare Department Strengthening cleansing service of welfare service units</p>	
<p>Strengthening general cleansing and enhancing environmental hygiene of welfare service units serving elders, disabled persons, children and youths etc.</p>	<ul style="list-style-type: none"> ● To provide additional resources for some 1 800 welfare service units (including some 600 residential welfare service units and some 1 200 day welfare service units) to hire cleansing service or employ part-time or temporary helping hands to strengthen general cleansing service and enhance environmental hygiene as appropriate. ● To kick-start the initiative in August / September 2009 subject to funding approval by Finance Committee, funding allocation on agency basis to be carried out in two half-yearly installments for launching of the new initiative for full completion by March 2011. ● Each welfare services unit to submit the 1st performance report on funding spending, number of temporary workers employed and enhanced cleanliness / environmental hygiene in January 2010; and to submit 2nd or final performance report on similar items in September 2010.

Agriculture, Fisheries and Conservation Department Additional cleansing of country park facilities and enhancing environmental hygiene of government wholesale food markets	
Upgrading the cleansing facilities in the flushing toilets of country parks	<ul style="list-style-type: none"> To provide automatic cleansing facilities at about 50 flushing toilets of country parks (including water taps, soap dispensers, hand dryers and disinfectant dispensers)
Enhancing cleanliness of country park areas	<ul style="list-style-type: none"> To provide one additional cleansing service at the popular recreation sites, forest tracks and hiking paths during weekends and public holidays. To arrange special clean up operations at around 10 dumping or refuse black spots in country parks.
Providing additional mobile toilets at popular recreation sites in country parks	<ul style="list-style-type: none"> To provide 10 more mobile toilets in the popular recreation sites of country parks.
Enhancing cleansing / disinfection for wholesale market toilets	<ul style="list-style-type: none"> To provide additional cleansing contractor manpower to enhance the hygiene condition of about 37 public toilets located at various wholesale markets. To increase the daily cleansing from 4 times to 6 times. The increased frequency will be on peak operation hours from 2:00 to 6:00 am.
Refuse collection at wholesale markets	<ul style="list-style-type: none"> To increase the daily refuse collection from one / two times to two / three times.
General wholesale market cleansing	<ul style="list-style-type: none"> To increase the daily cleansing / disinfection of lifts at the wholesale markets from

	<p>3 times to 6 times.</p> <ul style="list-style-type: none"> • To increase the cleansing of drainage and roads at the wholesale markets from once a week to twice a week. • To increase the frequency of tidying up wholesale market premises (e.g. removal of abandoned articles) from once a week to twice a week. • To increase the cleansing of sewage pump station at the wholesale markets from once a month to twice a month.
<p>Marine Department Additional cleansing services to cross-boundary ferry terminals, marine refuse collection points and other concerned water areas</p>	
<p>Thorough cleansing and Washing exercises at the Macau Ferry Terminal (MFT) and China Ferry Terminal (CFT)</p>	<ul style="list-style-type: none"> • To procure additional cleansing contractor manpower to conduct two thorough cleansing and washing exercises each at the terminals with focus at those areas which are not normally covered by routine cleaning. The first thorough cleaning will be conducted in September for completion in early October before the winter peak for influenza pandemic and the second one in March / April 2010.
<p>Stationing additional cleaners in passenger toilets at MFT and CFT</p>	<ul style="list-style-type: none"> • To procure additional cleansing contractor manpower to enhance the hygiene condition of all passenger toilets at MFT and CFT.
<p>Replacing the recycled rubbish bins at both MFT and CFT</p>	<ul style="list-style-type: none"> • To enhance the general hygiene in the terminals by replacing the existing plastic recycled rubbish bins with stainless steel ones within the first two months after the proposal is approved by Finance Committee.

<p>Setting up an additional special team for marine refuse collection and cleansing work</p>	<ul style="list-style-type: none">● To procure additional cleansing contractor manpower to enhance the floating refuse scavenging activities at the popular water-front areas, such as the Sai King, Stanley, Tai Tam Bay, Lamma Island etc.● To provide daily thorough cleaning at the marine refuse collection points with the use of pressurized water spray guns.
