Dear Madam/Sir

Re: Matters Relating to Railways

I fully support the development and the expansion of railway systems in Hong Kong as it provides a cheap, clean and efficient mode of transportation. Having traveled to many other countries, I think that each and every Hongkonger should take pride in our great networks on transportation. However, I should also urge the penal to take great consideration to ensure that areas of special ecological interest and historical values shall come before the development of the railways.

Warm regards

Billy R. Leung
