Dear sir

Regarding to the above amendment , I strongly oppose to include to protect the homosexual and lesbian in the bill. It is not suitable to call them a group of family. What our traditional form of family includes 1 male (husband) & 1 female (wife) as core member and all their children. We should protect any abuse to the family members in the form of traditional family size.

Gay & lesbian are adnormal form of combination and I strongly oppose on the amendment to include such group of people & protect them from discrimination and abuse.

Hope you accept my opposition.
